But *The Canoe and White Water* goes far beyond primers in canoeing skills It sets the sport in the contexts of history
technology geology and physics The author describes how canoes have been made over the centuries the factors governing

Canadian heritage His own experience has led him to pursue the sciences which help the canoeist understand the sport he
discusses the physics of river turbulence the geological formation of rivers and environmental questions His interests range
from the personal rights of modern canoeists to the eating habits of the voyageurs of old The book reflects his enthusiasm
and his research The text is illustrated with modern photographs instructive drawings of paddle strokes and river situations
