Alternative Perspectives On School Improvement:

Alternative Perspectives on School Improvement David Hopkins, Marvin Wideen, 1984-01-01 *School Effectiveness and School Improvement* Alma Harris, 2001 This comprehensive study furthers the debate on how to improve and raise achievement within schools

School Effectiveness, School Improvement David Reynolds, 2004-11-01 The pressure on schools to improve and to raise achievement continues to be a dominant issue in both school and government policies *School Effectiveness and School Improvement* seeks to develop the debate further providing academics and practitioners alike with a summary and discussion of research on school effectiveness and school improvement up to the present new perspectives on these fields developed from other traditions of thinking and research a consideration of the role of organization theory an integrated view of these current perspectives and clear practical implications for policy and practice

School Improvement Alma Harris, 2013-02-01 This book aims to demystify the principles and practice of school improvement by demonstrating how successful classroom and school improvement occurs It outlines the conditions strategies and approaches that promote sustainable improvement and provides an overview of the main theoretical perspectives in this area This accessible text will be useful for practitioners working within schools and with schools offering clear guidance for those keen to raise standards and improve achievement The What's In It For Schools series aims to make educational policy issues relevant to practitioners Each book in the series focuses on a major educational issue The author sets the issue in context looks at how it impacts on the daily lives of schools and teachers and raises key questions The books are grounded in sound theory recent research evidence and best practice and will make an excellent addition to any staffroom bookshelf

School Improvement for Real David Hopkins, 2003-09-02 As societies continue to set educational goals that are on current performance beyond the capacity of the system to deliver strategies for enhancing student learning through school and classroom intervention have become increasingly important Yet as David Hopkins argues in his book many of the educational initiatives recently developed under the umbrella of school improvement are inadequate or unhelpful Simply blaming teachers and delegating financial responsibility he maintains has little positive impact on classroom practice This is the bleak context within which school improvement has to operate today *School Improvement for Real* offers a genuine alternative a strategy for educational change that focuses on student achievement by modifying classroom practice and adapting the management arrangements within the school to support teaching and learning It outlines an approach to school improvement that has a medium term systemic orientation providing both principles and suggestions for better practice The author's experience in the field of school improvement ensures that the text is informed by a practical wisdom that is so often lacking from the more typical managerial texts on improvement and effectiveness

Subject Leadership and School Improvement Hugh Busher, Alma Harris, 2000-11-17 Curriculum and subject leadership in schools has recently gained substantial attention from both researchers and policy makers The Teacher Training Agency TTA has reinforced the

importance of subject leadership in school improvement proposing a new measure of such leadership competence through the creation of national subject leader standards NPQSL Subject Leadership and School Improvement reflects critically on the work of subject and curriculum leaders especially in schools in England and Wales that is those within the policy framework of The National Curriculum and the Teacher Training Agency The book debates the functions of subject leaders in primary and secondary schools using current research based conceptual frameworks and considers how they can bring about improvement and change with their colleagues in their subject areas It emphasizes what is particular about leading and managing the middle realm of education organizations showing how structural cultural and individual imperatives and perspectives interact with each other in the professional practice of being a subject leader The book is of interest not only to subject leaders and curriculum co ordinators to help them reflect rigorously on their practice but also to those responsible for supervising them such as headteachers and school governors as well as for those accountable to them It will be a useful text for serving teachers undertaking higher degrees programmes or programmes for gaining national standards qualifications the National Professional Qualification for Headteachers NPQH as much as for the NPQSL National Professional Qualification for Subject Leaders when it is implemented The Practice and Theory of School Improvement David Hopkins,2008-05-13 ANDY HARGREAVES Department of Teacher Education Curriculum and Instruction Lynch School of Education Boston College MA U S A ANN LIEBERMAN Carnegie Foundation for the Advancement of Teaching Stanford CA U S A MICHAEL FULLAN Ontario Institute for Studies in Education University of Toronto Canada DAVID HOPKINS Department for Education and Skills London U K This set of four volumes on Educational Change brings together evidence and insights on educational change issues from leading writers and researchers in the field from across the world Many of these writers whose chapters have been specially written for these books have been investigating helping initiate and implementing educational change for most or all of their lengthy careers Others are working on the cutting edge of theory and practice in educational change taking the field in new or even more challenging directions And some are more skeptical about the literature of educational change and the assumptions on which it rests They help us to approach projects of understanding or initiating educational change more deeply reflectively and realistically Educational change and reform have rarely had so much prominence within public policy in so many different places Educational change is ubiquitous It figures large in Presidential and Prime Ministerial speeches It is at or near the top of many National policy agendas Everywhere educational change is not only a policy priority but also major public news Yet action to bring about educational change usually exceeds people s understanding of how to do so effectively *Leading and Managing Change for School Improvement* Yildiz, Nadire Gülçin,2024-02-19 With the changing nature of education school leaders and administrators must acknowledge the dynamic nature of schools so that they can effectively take up the challenge of leading their institutions From ever evolving safety policies to the implementation of new educational technologies schools are being challenged to

adapt to social issues health crises environmental factors and more that make the successful operation of schools difficult It is important for these leaders to incorporate modern ideas about the complex nature of schools to have a better understanding of these dynamic school environments *Leading and Managing Change for School Improvement* provides a thorough understanding of the ways in which schools are continuously changing and what must be done so that educational leaders can effectively manage these changes The book also assesses different environments within which schools are established promotes positive school culture and ascertains ways of making schools more effective Covering topics such as professional development school improvement and school culture this reference work is ideal for administrators faculty school leaders researchers scholars academicians practitioners instructors and students *Decentralisation and School Improvement* ,1989 *School Improvement in an Era of Change* David Hopkins,Mel Ainscow,Mel West,1994 **Teacher Research and School Improvement** Rob Halsall,1998 This book is about the key role which the teaching profession has to play in school effectiveness and improvement The contributors argue that for genuine school improvement strategies and approaches must evolve from teachers themselves **Perspectives on School Effectiveness and School Improvement** Michael Barber,Louise Stoll,1997 This collection of papers presents the debate between supporters and critics of the school effectiveness movement School effectiveness research explores the different contributions schools make to pupils learning and the factors that make some schools more successful than others Politically influential helping to shape the education policies of the two main parties it has also been used at a practical level to generate programmes and policies for school improvement Members of the Institute of Education s School Effectiveness and Improvement Centre ISEIC which leads the field in research in this area contribute papers to this volume that both describe the research and reply to criticisms of it while other contributors from both within and outside the Institute provide philosophical sociological and cross cultural critiques which are challenged in an Endpiece by Peter Mortimore and Pam Sammons **Making School Improvement Work** W. G. van Velzen,1985 *Equity at Risk* Karl Jan Solstad,1997 Universal schooling in Norway was originated in 1793 by a Lutheran priest with an aim to achieve a greater readership of the Holy Book Higher education during the 19th and 20th centuries can be traced to two other forces firstly education was seen as a vehicle to strengthen a poor nation with a scattered population and a history of national inferiority and secondly education in Norway along with the growing labour movement was recognized as a way of reducing injustice in society These attitudes resulted in an education system almost devoid of the differences engendered by the classic sociological variables of gender social class and geographical location Norway had it seemed achieved what the post war Norwegian welfare state strove for equity in education *School Effectiveness and Improvement* David Reynolds,Bert P. M. Creemers,Ton Peters,1989 *Evaluation for School Development* David Hopkins,1989 Teachers and other educationalists are increasingly expected to carry out evaluations of new initiatives David Hopkins provides a guide to evaluations the primary focus of which is on practice **Transforming Schools** Bernard

Barker,2005 This intriguing book challenges the usual idea of how a weak or failing school can be turned into a successful one by the simple introduction of effective leadership and management Bernard Barker describes the journey of a struggling British Midlands comprehensive through special measures As a participant researcher in the process the author relates how government inspectors impose a conventional regime based on improved leadership to drag the institution from the mire But he shows that schools heads teachers and pupils are infinitely diverse and have an infinite range of motivations priorities and personalities Based on his experience he argues that imposing strict government inspired improvement models cannot solve all the problems of an institution that is defined not only by its leaders and teachers but also by the complexities of its organizational context and social geography Challenging conventional wisdom the book argues that although a school can quickly be made to show the 11 key effectiveness characteristics this does not always lead to an improvement in the prescribed indicator for success exam results The book develops an alternative conception of how leaders improve their schools This in depth and analytical yet thoroughly human account of a school s struggle away from the stigma of special measures is a must read for all involved in education from policymakers and officials to local authorities researchers leader watchers heads teachers governors and parents Improving Schools for the 21st Century Forrest W. Parkay,1988

Leadership from an Integrative Perspective in American International Schools Elizabeth

Murakami-Ramalho,2005 **School Improvement** Robert V. Carlson,Edward R. Ducharme,1987-01-15 This collection provides a comprehensive analysis of the school improvement movement Contains reports of research studies descriptions of successful school improvement efforts analyses of educational theory and practice and critiques of change efforts Provides readers with a comprehensive understanding of the school improvement efforts of the past several years from both practical and theoretical perspectives
