Christian Declaration Of Human Rights:

Human Rights Douglas J. Elwood, 1990 Christianity and Human Rights Frederick M. Shepherd, 2009-07-15 In *Christianity and Human Rights Christians and the Struggle for Global Justice* Frederick M Shepherd has collected essays by scholars and activists who in a wide variety of ways confront the issue of Christianity's role in the burgeoning movement for human rights. The volume's contributors provide diverse perspectives on the theology behind the idea of human rights, the debate over its meaning, and the evolution of the struggle for human rights. A wide variety of disciplinary perspectives are represented, from economics, political science, and law to history, philosophy, and theology. The essays also represent a broad political spectrum, including specific accounts from activists participating in the struggle for human rights. Separate chapters focus on cases from Europe, Africa, Latin America, and Asia. *Christianity and Human Rights* begins and ends with attempts to synthesize current theory and practice, acknowledging both Christianity's great success and its failures in defending basic human rights around the globe.

T&T Clark Handbook of Christian Ethics Tobias Winright, 2020-12-10 The T T Clark Handbook of Christian Ethics provides an ecumenical introduction to Christian ethics, its sources, methods, and applications. With contributions by theological ethicists known for their excellence in scholarship and teaching, the essays in this volume offer fresh purchase on and an agenda for the discipline of Christian ethics in the 21st century. The essays are organized in three sections following an introduction that presents the four font approach and elucidates why it is critically employed through these subsequent sections. The first section explores the sources of Christian ethics, including each of the four fonts: scripture, tradition, experience, and reason. The second section examines fundamental or basic elements of Christian ethics and covers different methods, approaches, and voices in doing Christian ethics, such as natural law, virtue ethics, conscience, responsibility, narrative, worship, and engagement with other religions. The third section addresses current moral issues in politics, medicine, economics, ecology, criminal justice, and other related spheres from the perspective of Christian ethics, including war, genetics, neuroethics, end of life decisions, marriage, family, work, sexuality, nonhuman animals, migration, aging, policing, incarceration, capital punishment, and more.

T&T Clark Handbook of Christian Theology and Climate Change Hilda P. Koster, Ernst M. Conradie, 2019-12-12 The T these essays are critically engaged by respondents situated in other geographic regions, minority communities, non-Christian traditions, or non-theological disciplines. Structured in seven main parts, the handbook explores: 1) the need for collaboration with disciplines outside of Christian theology to address climate change; 2) the need to find common moral ground for such collaboration; 3) the difficulties posed by collaborating with other Christian traditions from within; 4) the questions that emerge from such collaboration for understanding the story of God's work; and 5) God's identity and character; 6) the implications of such collaboration for ecclesial praxis; and 7) concluding reflections examining whether this volume does justice to issues of race, gender, class, other animals, religious diversity, geographical divides, and carbon mitigation. This rich ecumenical, cross-cultural conversation provides a comprehensive and in
