Christian Faith An Introduction To Dogmatic The:

The Christian faith: an introduction to dogmatic theology Claude Beaufort Moss,1961 The Christian Faith Claude Beaufort Moss,1954 The Christian Faith Claude B. Moss,2005-04-11 from the Preface The subject of this book is not apologetics but dogmatics that is it is intended primarily not for those who are outside but for those who are inside the Christian fold It is our duty as Christians to try to bring all men to the knowledge of the truth but we cannot do so unless we ourselves know clearly what the Christian religion is The lectures on which this book is based were given through many years to Anglican candidates for ordination and were at all times subjected to their criticism Readers are warned as they were warned to take no statement for granted but to check it for themselves No belief is really ours until we have made it our own St John 4 42 This book is intended chiefly for members of the Anglican churches which though they have no doctrines peculiar to themselves have a standpoint and an emphasis of their own which is given here without qualification or apology For this reason more space is devoted to Anglican authority formularies and organization than might otherwise be justified

The Christian Faith Claude Beaufort Moss,1944 **God, the World, and Hope** Harald Hegstad,2018-10-31 Who is Jesus Christ What does it mean to say that we are created in the image of God What does salvation mean What is the meaning of baptism What characterizes the Christian fellowship What hope does a Christian faith give for the future These are only a few of the questions that this textbook on dogmatics takes up This book begins the discussion of the various topics by looking at what the Bible has to say Hegstad then examines how the church s doctrine has developed over the course of history and discusses how the Christian faith can best be formulated today This book understands the Christian faith as an answer to universal existential questions that challenge all religions and worldviews Dogmatics is understood here as the expression of a Christian interpretation of life Hegstad himself belongs to the Lutheran church tradition but his perspective is consistently ecumenical This introduction to dogmatics will interest not only students but everyone who is looking for a deeper insight into the Christian faith **Introduction to Dogmatic Theology** Edward Arthur Litton,1882

Dogmatics I Emil Brunner,2025-04-24 One of the great twentieth century works of theology Emil Brunner s Dogmatics series presents a profoundly biblical systematic theology Finding a path between Barth and Bultmann Brunner explores key doctrines such as the doctrine of God creation and redemption and the doctrine of the church and of faith These foundational texts from a leading theologian of the 20th century are crucial for scholars and students illuminating how modern Protestant theology was formed in the last century The first volume serves as an

introduction to Brunner's view of dogmatics setting out the nature position and necessity of dogmatics before exploring the many facets of the doctrine of God In detailed vigorous explanation Brunner considers the nature and will of God including his name his holiness his wisdom and his glory Thorough insightful and extensive this first volume is an illuminating beginning to this series The second volume explores the fundamental concepts of the protestant doctrine from creation and the creator to man's position within creation sin and its consequences and the saving work of Jesus Brunner explores all of the possibilities of these fundamentals and his detailed thoughtful arguments are designed as he says to set us free to have a faith which is based on nothing save the Love of God revealed in Jesus Christ The third and final volume focusses on the theology of the Church as a reflection of God's self revelation through the Holy Spirit and an eternal consummation of Divine self communication Drawing together the understanding gleaned in the previous two volumes Brunner addresses the nature of the church and faith to bring his systematic biblical theology into the experiences of his readers

An Introduction to Protestant Dogmatics Paul Lobstein, 1902 **An Introduction to Dogmatic Theology** Revere Franklin Weidner, 1895 In this Introduction we closely follow the outline of Luthardt but though we follow his outline and plan it is not a translation nor a condensation nor simply an adaptation but we have made an attempt to rewrite the work for the special wants of the Church in this country The writer would also record his great indebtedness to the manuscript lectures of Dr Krauth which have been freely used and from which we have derived constant stimulus and suggestion

Dogmatics III Emil Brunner, 2025-04-24 One of the great twentieth century works of theology Emil Brunner's Dogmatics series presents a profoundly biblical systematic theology Finding a path between Barth and Bultmann Brunner explores key doctrines such as the doctrine of God creation and redemption and the doctrine of the church and of faith These foundational texts from a leading theologian of the 20th century are crucial for scholars and students illuminating how modern Protestant theology was formed in the last century The first volume serves as an introduction to Brunner's view of dogmatics setting out the nature position and necessity of dogmatics before exploring the many facets of the doctrine of God In detailed vigorous explanation Brunner considers the nature and will of God including his name his holiness his wisdom and his glory Thorough insightful and extensive this first volume is an illuminating beginning to this series The second volume explores the fundamental concepts of the protestant doctrine from creation and the creator to man's position within creation sin and its consequences and the saving work of Jesus Brunner explores all of the possibilities of these fundamentals and his detailed thoughtful arguments are designed as he says to set us free to have a faith which is based on nothing save the Love of God revealed in Jesus Christ The third and final volume focusses on the theology of the Church as a reflection of God's self revelation through the Holy Spirit and an eternal consummation of Divine self communication Drawing together the understanding gleaned in the previous two volumes Brunner addresses the nature of the church and faith to bring his systematic biblical theology into the experiences of his readers

Christian Dogmatics Hans Martensen, 1866 **Christian Dogmatics** Carl E.

Braaten, Robert W. Jenson, 2011-07 Volume 1 discusses dogmatics the Trinity the identity of God creation sin and Christology

The Christian Faith Friedrich Schleiermacher, 1928 In the opinion of competent thinkers the Christian Faith of Schleiermacher is with the exception of Calvin's Institutes the most important work covering the whole field of doctrine to which Protestant theology can point To say this is not necessarily to adopt either his fundamental principles or the detailed conclusions to which these principles have guided him On all such matters a nearly unbroken controversy has long prevailed Indeed at the moment a formidable attack is being delivered upon his main positions by a new and active school of thought in Germany But whether for acceptance or rejection it is necessary for serious students to know what Schleiermacher has to say

Editors preface page v **The Christian Faith** Colin Gunton, 2001-10-08 This book offers a comprehensive and lively look at the Christian faith by internationally respected theologian Colin Gunton Distilling a lifetime's experience of teaching and thought this is a book for those who wish to understand the meaning and relevance of the fundamental beliefs of Christianity The order of the book follows the central themes of the Nicene Creed the manifesto of the Christian faith Beginning with consideration of creation and providence it moves on to the person and work of Christ and then to the human appropriation of belief and eschatology A concluding chapter brings together in a treatment of the Trinity a discussion of the divine attributes and the doctrine of God that has been revealed in the process of the book's argument No other book offers such a comprehensive systematic and accessible overview of the Christian faith It will prove invaluable to students of introductory theology as well as anyone interested in the fundamental claims of Christianity **Introduction to Dogmatic Theology**

Edward Arthur Litton, 1912 Romanism including its mutilated counterpart Anglo Catholicism is a religion of the incarnation the virtue of which is communicated by sacraments Protestantism is a religion of the atonement the virtue of which is appropriated by direct faith in Christ his Word and his work not however to the exclusion of sacraments in their proper place Broadly this is the difference On neither side are these cardinal facts of revelation or their connexion denied there could have been no atonement if there had not been an incarnation but the stress laid on the one or the other and particularly differences of view as regards the instrument of appropriation may affect our whole conception of Christianity and lead to widely divergent theological systems Author's preface to the first edition *Christian dogmatics, tr. from the Germ. by W. Urwick*

Maureen Junker-Kenny, 2020-12-07 Since its first appearance in 1821-22 The Christian Faith has had a fractious history of reception It implements decisive departures for theology founding the possibility to speak about God on human freedom It recognises the role of historical consciousness and the need to relate to advances in the natural sciences The study investigates the early critiques of Schleiermacher's analysis of the feeling of utter dependence of his conception of Christ as the archetype of the God consciousness and of his doctrine of God in terms of absolute causality It reconstructs the revisions carried out in the second edition of 1830-31 as a break through to a transcendental argumentation Does Schleiermacher's

elaboration of the anthropological turn in theology leave it defenseless against the dissolution of faith in a saving God in Feuerbach's projection thesis Does it offer a naturalising account of religion And where does the interconnectedness of nature established by God leave what was prized by the Romantics human individuality Ongoing objections and new constellations of questions are examined in their relevance for a modern theology that spells out faith in God as a practical self understanding Maureen Junker Kenny's book is an outstanding presentation of Schleiermacher's theology She attends not only to the development of his method from the first to the second edition of *The Christian Faith* but also to his concrete interpretation of Creation Christology Redemption Theological Anthropology especially human freedom and his understanding of God The book has an exceptional value in the way she relates Schleiermacher not only to his contemporaries but also to contemporary concerns Schleiermacher's theology is shown in its relation to the modernity of his age but also the ongoing modernity of today The book has a depth and breadth that make it indispensable not only for historical theology but also for contemporary constructive theology Francis Schüssler Fiorenza Harvard Divinity School *In Self Christ and God in Schleiermacher's Dogmatics: A Theology Reconceived for Modernity* Maureen Junker Kenny proves herself to be not only a distinguished interpreter of Schleiermacher's work but a creative practitioner in her own right of his dialogical method Elegantly conceived and beautifully written the book shows how Schleiermacher connected the different aspects of his thought form content structure doctrine piety critical rigor into a coherent system *In Self Christ and God in Schleiermacher's Dogmatics* is now the only guide to Schleiermacher's magnum opus *Christian Faith* anyone needs Christine Helmer Northwestern University Chicago *Dogmatics II* Emil Brunner, 2025-04-24 One of the great twentieth century works of theology Emil Brunner's *Dogmatics* series presents a profoundly biblical systematic theology Finding a path between Barth and Bultmann Brunner explores key doctrines such as the doctrine of God creation and redemption and the doctrine of the church and of faith These foundational texts from a leading theologian of the 20th century are crucial for scholars and students illuminating how modern Protestant theology was formed in the last century The first volume serves as an introduction to Brunner's view of dogmatics setting out the nature position and necessity of dogmatics before exploring the many facets of the doctrine of God In detailed vigorous explanation Brunner considers the nature and will of God including his name his holiness his wisdom and his glory Thorough insightful and extensive this first volume is an illuminating beginning to this series The second volume explores the fundamental concepts of the Protestant doctrine from creation and the creator to man's position within creation sin and its consequences and the saving work of Jesus Brunner explores all of the possibilities of these fundamentals and his detailed thoughtful arguments are designed as he says to set us free to have a faith which is based on nothing save the Love of God revealed in Jesus Christ The third and final volume focusses on the theology of the Church as a reflection of God's self revelation through the Holy Spirit and an eternal consummation of Divine self communication Drawing together the understanding gleaned in the previous two volumes
