Christian Health Science Vs Christian Science 191:

Comparative and Rational Christian Science Charles Robinson, 1911 *From Christian Science to Jewish Science* Ellen M. Umansky, 2005 During the late nineteenth and early twentieth centuries thousands of American Jews were drawn to the teachings of Christian Science Viewing such attraction with alarm American Reform Rabbis sought to counter Christian Science's appeal by formulating a Jewish vision of happiness and health Unlike Christian Science it acknowledged the benefits of modern medicine yet sharing the belief in God as the true source of healing similarly emphasized the power of visualization and affirmative prayer Though the numbers of those formally affiliated with Jewish would remain small its emphasis on the connection between mind and body influenced scores of rabbis and thousands if not hundreds of thousands of American Jews predating contemporary Jewish interest in spiritual healing by more than seventy years Examining an important and previously unwritten chapter in the story of American Judaism this book sheds light on religious and social concerns of twentieth century American Jewry including ways in which adherence to Jewish Science helped thousands bridge the perceived gap between Judaism and modernity **The Emergence of Christian Science in American Religious Life** Stephen Gottschalk, 2024-07-26 Christian Science is one of only two indigenous American religions the other being Mormonism Yet it has not always been examined seriously within the context of the history of religious ideas and the development of American religious life Stephen Gottschalk fills this void with an examination of Christian Science's root concepts the informing vision and the distinctive mission as formulated by its founder Mary Baker Eddy Concentrating on the quarter century preceding Eddy's death a period of phenomenal growth for Christian Science Gottschalk challenges the conventional academic view of the movement as a fringe sect He finds instead a serious and distinctive though radical religious teaching that began to flower just as orthodox Protestantism began to fade He gives a clear and detailed account of the rancorous controversies between Christian Science and the various mind cure and occult movements with which it is often associated and contends that Christian Science appealed to disenchanting Protestants because of its pragmatic quality a quality that relates it to the mainstream of American culture This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1973 **The Life of Mary Baker Eddy and the History of Christian Science** Georgine Milmine, 1909 **The Christian Science Journal**, 1919 **Christian Science Sentinel**, 1899 **Christian Science** Stephen Gottschalk, 1978 **The Truth about Christian Science** James Henry Snowden, 1920 *A New Christian Identity* Amy B. Voorhees, 2021-02-10 In this study of Christian Science and the culture in which it arose Amy B Voorhees emphasizes Mary Baker Eddy's foundational religious text Science and Health with Key to the Scriptures Assessing the experiences of everyday adherents after Science and Health's

appearance in 1875 Voorhees shows how Christian Science developed a dialogue with both mainstream and alternative Christian theologies Viewing God s benevolent allness as able to heal human afflictions through prayer Christian Science emerged as an anti mesmeric restorationist form of Christianity that interpreted the Bible and approached emerging modern medicine on its own terms Voorhees traces a surprising story of religious origins cultural conversations and controversies She contextualizes Christian Science within a wide swath of cultural and religious movements showing how Eddy and her followers interacted regularly with Baptists Methodists Congregationalists Catholics Jews New Thought adherents agnostics and Theosophists Influences flowed in both directions but Voorhees argues that Christian Science was distinct not only organizationally as scholars have long viewed it but also theologically a singular expression of Christianity engaging modernity with an innovative healing rationale *Another Gospel* Ruth A. Tucker,2004 Ruth A Tucker s book is a comprehensive survey of all the major alternative religions in the United States including the new groups since the 1960s
