**Bhaktas** Jonas Adelin Jørgensen,2008 The massive changes of Christianity during the 20th century raise the perennial question about its identity in a new radical form The author addresses the question of identity and asks how globalisation religious pluralism and the polycentric nature of Christianity affect Christian self identification and theological reflection First religious life and theological reflection among believers in Jesus from Muslim and Hindu background in South Asia is presented in two empirical studies Secondly the findings are analysed and interpreted within a broad theoretical framework drawing on models for syncretistic processes from history of religions cultural anthropology and Christian theology Finally the study concludes with a systematic theological perspective on the interreligious hermeneutics underlying the changes of Christianity and discusses how interreligious hermeneutics might inform missiology as well as Christian theologies of religions and how this might challenge our understanding of the church s nature and mission In conclusion it is argued that a global polycentric Christianity can be interpreted as fellowship created by the Spirit and centred on Christ **My Quests**

McGill,2015-08-04 Arthur McGill did not write very much but what he did write is as theologically suggestive and startling today as it was when it was written in the 1960s and 1970s He was not well known during his lifetime but those who cared about the work of theology knew Arthur McGill Writing during the ascendancy of the Death of God theologies McGill s words have a freshness that the more widely known theological writing of that time has lost McGill wrote only two short books during his life and just a handful of scattered essays often published in obscure places We are fortunate that Kent Dunnington has collected and introduced those essays here The essays reveal a theologian with an uncanny and intrepid resolve to make theological claims illumine and unsettle our lives As Stanley Hauerwas writes in his afterword to the collection To read McGill is to discover a way to do theology without fear God knows from where he came but McGill as the chapters in this welcome and important book demonstrate had the ability to make theology do work so that we might better negotiate the imponderable reality we call our life **Casebook for Christian Living** Robert A.
