Christianity Democracy And Technology:

Christianity, Democracy, and Technology Zoltan Sztankay, 1957 **What is Christian Democracy?** Carlo Invernizzi Accetti, 2019-10-03 Christian Democratic actors and thinkers have been at the forefront of many of the twentieth century's key political battles from the construction of the international human rights regime through the process of European integration and the creation of postwar welfare regimes to Latin American development policies during the Cold War Yet their core ideas remain largely unknown especially in the English speaking world Combining conceptual and historical approaches Carlo Invernizzi Accetti traces the development of this ideology in the thought and writings of some of its key intellectual and political exponents from the mid nineteenth century to the present day In so doing he sheds light on a number of important contemporary issues from the question of the appropriate place of religion in presumptively secular liberal democratic regimes to the normative resources available for building a political response to the recent rise of far right populism

Taking Christianity to China Samuel Paul Garner, 1976 Beginning early in the 19th century the American missionary movement made slow headway in China Alabamians became part of that small beachhead After 1900 both the money and personnel rapidly expanded peaking in the early 1920s By the 1930s many American denominations became confused and divided over the appropriateness of the missionary endeavor Secular American intellectuals began to criticize missionaries as meddling do gooders trying to impose American Evangelicalism on a proud ancient culture By examining the lives of 47 Alabama missionaries who served in China between 1850 and 1950 Flynt and Berkley reach a different conclusion Although Alabama missionaries initially fit the negative description of Americans trying to superimpose their own values and beliefs on heathen they quickly learned to respect Chinese civilization The result was a new synthesis neither entirely southern nor entirely Chinese Although previous works focus on the failure of Christianity to change China this book focuses on the degree to which their service in China changed Alabama missionaries And the change was profound In their consideration of 47 missionaries from a single state their call to missions preparation for service in China living working contacts back home cultural clashes political views internal conflicts and gender relations the authors suggest that the efforts by Baptist Methodist and Presbyterian missionaries from Alabama were not the failure judged by many historians In fact the seeds sown in the hundred years before the Communist revolution in 1950 seem to be reaping a rich harvest in the declining years of the 20th century when the number of Chinese Christians is estimated by some to be as high as one hundred million
