## **Christianity In European History:**

*The History of Christian Europe* G. R. Evans, 2018-11-23 How did Christianity come to have such an extraordinary influence upon Europe Gillian R Evans The History of Christian Europe offers a fascinating portrayal of the development and spread of Christianity in the context of over 2 000 years of European history Beginning with the transmission of Jesus teaching throughout the Roman world Evans shows how Christianity transformed not only the thinking but also the structures of society in a Christendom that was until relatively modern times essentially a European phenomenon She traces Christianity s influence across the centuries from its earliest days through the East West schism the Reformation and Counter Reformation to its development in the scientific age of the seventeenth and eighteenth centuries and its place in the modern world The narrative is complemented by boxed features highlighting key events and concepts such as monastic life icons Darwin s The Origin of Species prophecy the slave trade and the influence of psychology Gillian R Evans draws on her expertise in the fields of medieval theology ecumenism and intellectual history to create an engaging and accessible account of an important subject in European history The History of Christian Europe will appeal to scholars of religion and history who are seeking a fuller understanding of how Christianity helped shape and define Europe and consequently the wider world

Christianity in European History Herbert Butterfield, 1954 **Christianity in European History** William A. Clebsch, 1979 *The Cambridge History of Christianity: Volume 4, Christianity in Western Europe, c.1100-c.1500* Miri Rubin, Walter Simons, 2014-07-31 During the early middle ages Europe developed complex and varied Christian cultures and from about 1100 secular rulers competing factions and inspired individuals continued to engender a diverse and ever changing mix within Christian society This volume explores the wide range of institutions practices and experiences associated with the life of European Christians in the later middle ages The clergy of this period initiated new approaches to the role of priests bishops and popes and developed an ambitious project to instruct the laity For lay people the practices of parish religion were central but many sought additional ways to enrich their lives as Christians Impulses towards reform and renewal periodically swept across Europe led by charismatic preachers and supported by secular rulers This book provides accessible accounts of these complex historical processes and entices the reader towards further enquiry

*Christianity in European History: the Riddell Memorial Lectures, 1951* Sir Herbert Butterfield, 1952 The Rise of Christian Europe H. R. Trevor-Roper, 1988-12-01 *The Rise of Christian Europe* Hugh Trevor-Roper, 1965 Christianity and Modern Civilization William Samuel Lilly, 1903 An Outline of Christianity: The rise of the modern churches , 1926 Christianity and European Culture (Selections from the Work of Christopher Dawson) Christopher Dawson, 1998-09 Christopher Dawson 1889 1970 has been widely praised as one of the most important Catholic historians of the twentieth century Commended by T S Eliot Arnold Toynbee and many others for his sophisticated approach to history Dawson integrated a providential vision with traditional historical analysis Many of his works focused on the important relationship between religion and culture This

volume is the first edited collection of Dawson's works to appear in several decades. It includes the full text of *The Historic Reality of Christian Culture* (1960) and features selections from numerous works including *The Making of Europe* (1932), *The Judgment of the Nations* (1943), and *Medieval Essays* (1959). Dawson believed that the modern era challenged traditional ways of living through its denigration of historical memory. He emphasized the need to understand the role religious values had played in the formation of culture, especially Western culture, and their continuing influence in world affairs. He sought to reconnect Europe's material wealth and economic power with the fundamental religious values that once had formed the core of European identity. This book provides a comprehensive introduction to the development of Dawson's thinking on questions that remain of contemporary importance. It illustrates Dawson's approach in defining Christian culture, its likelihood in the present era, and its adaptability to non-Western and pluralist societies. The collection also provides insight on issues ranging from the new evangelization and the future of modern liberalism to the clash of civilizations that is emerging as the newest challenge in the post-Communist world. Christianity and European Culture will be of interest to students and scholars of history, historiography, theology, and the history of ideas. It is intended also for those interested in Dawson himself or in twentieth-century Catholic intellectual history.

ABOUT THE EDITOR: Gerald J. Russello is an attorney with the firm of Howard Smith Levin LLP in New York.

PRAISE FOR THE BOOK: Superbly introduced and shrewdly chosen, this selection of hard-to-find Dawson essays is a powerful contribution. It covers all the central themes of this greatest of all historians of Christian cultures. Michael Novak, American Enterprise Institute. No one was more keenly aware than Christopher Dawson of the need to recover a sense of Western history and Christianity's centrality to that history in order to understand the modern world in which we live. Russello's selections from Dawson provide a marvelous introduction to the thought of an unjustly neglected twentieth-century giant. A great book that I hope will lead to the republication of all of Dawson. Robert Royal, Ethics and Public Policy Center. A profound collection of essays from the vast corpus of Dawson studies. Dawson remains an essential teacher about the content of the modern mind and whence it came. His judgments about man's worldly and transcendent meaning are always on the mark. James V. Schall, S.J., Georgetown University. Those concerned with the state of liberal education or the interrelationship of culture, education, and religion will find the late Dawson's essays of more than historical importance. Booklist. For students of Western culture, Christopher Dawson is an indispensable guide. His opera omnia would number more than twenty-five volumes if brought together in a uniform edition. Absent that, Gerald Russello provides in these selections a valuable collection that can only whet one's appetite for further texts. His introduction to the volume is excellent and in itself worthy of Dawson for its lucidity and vision. The Intercollegiate Review. The selections well represent Dawson.

**Christian Churches in European Integration** Sergei A. Mudrov, 2016-06-03. All too often religion is largely ignored as a driver of identity formation in the European context, whereas in reality Christian Churches are central players in European identity formation at the national and continental level. *Christian Churches in European Integration* challenges this tendency.

highlighting the position of churches as important identity formers and actors in civil society Analysing the role of Churches in engaging with two specific EU issues that of EU treaty reform and ongoing debates about immigration and asylum policy the author argues that Churches are unique participants in European integration Establishing a comprehensive view of Christian Churches as having a vital role to play in European integration this book offers a substantial and provocative contribution both to our understanding of the European Union and the broader question of how religious and state institutions interact with one another **An Outline of Christianity** ,1926 Cultural Expressions of Evil and Wickedness Terrie Waddell,2003 Annotation A dozen essays developed from presentations at a 2002 conference in Prague sponsored the Perspectives on Evil and Human Wickedness research project scholars in a wide range of disciplines offer new perspectives on the extermination of the Cathars and Pequots second wave feminism and pornography s golden age sin and redemption in the films of Abel Ferrara and other public displays of wrath sex and crime There is no index Annotation 2004 Book News Inc Portland OR booknews com *Christian Supremacy* Magda Teter,2025-03-04 A panoramic cultural and legal history that traces the roots of antisemitism and racism to early Christian theology Since the earliest days of Christianity theologians expressed pervasive anxiety about Jews as equal members of society and with European expansion in the early modern period that anxiety extended to people of color This troubling legacy still haunts us today Christian Supremacy demonstrates how theological and legal frameworks created by the church centuries ago laid the seeds of antisemitism and anti Black racism and reveals why Christian identity lies at the heart of the world s violent white supremacy movements In a powerful historical narrative spanning nearly two millennia Magda Teter describes how Christian theology of late antiquity cast Jews as children born to slavery and how the supposed theological inferiority of Jews became inscribed into law creating tangible structures that reinforced a sense of Christian domination and superiority With the dawn of European colonialism a distinct brand of European Christian supremacy found expression in the legally sanctioned enslavement and exploitation of people of color later taking the form of white Christian supremacy in the New World Drawing on a wealth of primary evidence ranging from the theological and legal to the philosophical and artistic Christian Supremacy is a profound reckoning with history that traces the roots of the modern rejection of Jewish and Black equality to an enduring Christian heritage of exclusion intolerance and persecution Christianity in a Divided Europe Hanns Lilje,1961 Citizenship and Collective Identity in Europe Ireneusz Pawel Karolewski,2009-12-04 This book is the first monograph to systematically explore the relationship between citizenship and collective identity in the European Union integrating two fields of research citizenship and collective identity Karolewski argues that various types of citizenship correlate with differing collective identities and demonstrates the link between citizenship and collective identity He constructs three generic models of citizenship including the republican the liberal and the caesarean citizenship to which he ascribes types of collective identity Using a multidisciplinary approach the book integrates concepts theories and empirical findings from sociology in the field of citizenship research social
