Christopher Dresser:

Christopher Dresser Max Donnelly, 2021-06-29 A beautifully designed gift book devoted to the work of Christopher Dresser one of the most influential British designers whose work continues to resonate today Christopher Dresser 1834 1904 is one of the most influential British designers of all time and is widely regarded as Britain's first independent industrial designer More than a century later his works still look remarkably modern Like his contemporary William Morris Dresser advocated for an honesty of materials but unlike Morris he fully embraced industrial techniques designing for the growing consumer market Through Dresser's fascination with the arts of Japan and his strong belief in Owen Jones's principle that ornament should be geometrical in form his designs look surprisingly minimal for their time Affordable well designed functional and commercially successful the objects that Dresser designed wallpapers textiles carpets ceramics furniture and most famously metalwork were industrially produced by manufacturers across the United States United Kingdom and continental Europe This compact beautifully produced book on Dresser's work begins with a brief introduction to his life and work before presenting seventy five of his most important pieces each accompanied by an in depth caption Christopher Dresser is for anyone interested in modern design

Shock of the Old Michael Whiteway, 2004-03 Published in conjunction with Christopher Dresser's first comprehensive museum retrospective organized by Cooper Hewitt National Design Museum then traveling to the Victoria and Albert Museum this extensively illustrated survey affirms his achievement as the first professional industrial designer in effect the inventor of the modern day career of product designer Dresser 1837 1904 trained both as a designer and a botanist deriving his design vocabulary initially from observations of nature As the first European designer to visit Japan in an official capacity he made comprehensive study of Japanese art during his four month visit The experience confirmed his belief in the supremacy of form over ornament and resulted in designs that were truly radical in relation to contemporary Victorian taste Dresser was also a pioneer in his vision of industry as a means to spread the tenets of good design working with over fifty manufacturers in a wide variety of media to produce an astonishing range of reasonably priced widely available consumer goods Seven essays from leading specialists in the field explore the impact of Christopher Dresser's theories and work in the context of his contemporaries such as Pugin Owen Jones and Godwin His achievement is seen in relation to the late industrial revolution and the development of modern design The 300 illustrations illuminate the vast scope of his output from Gothic Revival cast iron Coalbrookdale hall stands and the stark geometric forms of James Dixon Sons silver plate to the experimental and highly innovative shapes and glazes of Linthorpe ceramics The catalogue also features previously unattributed designs for textiles wallpaper and glass and expands the sum of Dresser scholarship into new and illuminating areas

BOOK JACKET ***A Design Revolution*** Michael Whiteway, 2011-03 Now available in paperback this extensively illustrated book affirms Christopher Dresser's status as the first and most innovative professional product designer Leading specialists in the field explore the impact of Dresser's work in the context of such

contemporaries as Pugin Owen Jones and E W Godwin This ground breaking survey reassesses not only individual designs many of them previously unattributed but also his varied sources and the profound impact his work has had on future generations of designers and manufacturers *Christopher Dresser* Stuart Durant, Christopher Dresser, 1993

Christopher Dresser is best remembered for his pioneering advances in design and associated technology In the new industrial world of the nineteenth century Dresser was the first designer to understand that machinery was a good servant but a poor master he made it his business to understand how machines worked His success gained him credibility Dresser became a sought after consultant to several textile manufacturers most notably Barlow Jones Tootal Warner Sons Turnbull Stockdale and Wardle which allowed him to establish the largest design practice in Britain by 1870 Equally it was his success in promoting textiles at affordable prices that attracted his popular following in the press Unlike his contemporaries he was interested in making designs available to everyone However Dresser is less celebrated in comparison to other designers of the era such as William Morris because Dresser was obliged to abandon this campaign to improve British taste due to an unexplained illness in the early 1880s At the same time Morris was expanding his business just as the Arts and Crafts movement was beginning to gain momentum Despite being the first Victorian to address the decorative needs of all the population there is a severe lack of appreciation for Dresser s work whose influence can be found in many textiles that we take for granted today This book redresses that balance giving Dresser the monograph he deserves *Christopher Dresser, 1834-1904* Michael Whiteway, Christopher Dresser, 2001 Dr Christopher Dresser was the first industrial designer running a studio supplying designs to many different manufacturers in several countries Queen Victoria s husband Prince Albert had tried to reform the standards of design to met the challenges of industrial production methods by establishing the Government Schools of Design and in 1850 it was decided to hold an International Exhibition in London The Great Exhibition of the Works of Industry of All Nations was a great success and had over six million visitors in the six months that it was open but it only emphasized the urgent need for higher standards of industrial design book jacket History of Modern Design David Raizman, 2003 An exploration of the parallel development of product and graphic design from the 18th century to the 21st The effects of mass production and consumption man made industrial materials and extended lines of communication are also discussed The Studio, 1899 **Studies in Design** Christopher Dresser, 2002 In Christopher Dresser s own words I have prepared this Work with the hope of assisting to bring about a better style of decorations for our houses My book is intended to help the decorator and to enable those who live in decorated houses to judge to an extent the merit of the ornament around them Indeed in this reprint of the classic *Studies in Design* the timeless designs and wisdom of Christopher

Dresser are reintroduced Originally published in 1875 Studies in Design features Dresser s exquisite design and classic theories that have enduring appeal Christopher Dresser is considered by many to have been the most influential designer of the nineteenth century and his designs later had a major influence on the Arts Crafts and Modernist movements Dresser s designs which later influenced other artisans such as William Morris and Charles Tiffany reveal exotic influences from such locations as Egypt Japan China India and Morocco

Christopher Dresser 1834-1904,2004 **Studio** ,1899 **In Pursuit of Beauty** Metropolitan Museum of Art (New York, N.Y.),1986 This project is the first comprehensive study of a phenomenon that not only dominated the American arts of the 1870s and 1880s but also helped set the course of such later developments in the United States as the Arts and Crafts movement the indigenous interpretation of Art Nouveau and even the rise of modernism In fact the early history of the Metropolitan its founding its sponsorship of a school of industrial design and its display of decorative works is inextricably tied to the Aesthetic movement and its educational goals In Pursuit of Beauty Americans and the Aesthetic Movement comprised some 175 objects including furniture metalwork stained glass ceramics textiles wallpaper painting and sculpture Some of these had rarely been displayed others although familiar were being shown in new and even startling contexts The exhibition and catalogue are arranged thematically to illustrate both the major styles of a visually rich movement and the ideas that generated its diversity From publisher s description
