## **Diplomacy Of Wolves:**

*Diplomacy of Wolves* Holly Lisle,2000-10-01 This first volume of The Secret Texts trilogy builds a complete fantasy world with systems of magic politics geography history **Diplomacy of Wolves** Lisle,2001-01 *Diplomacy of Wolves* Holly Lisle,2014-07-02 Two shapeshifters clash in this fantasy mixing politics and romance One of them is the heroine Kait Galweigh a noblewoman serving as a diplomat who can change into a wolf By the author of Glenraven Vicious Jon T. Coleman,2006-11-15 Over a continent and three centuries American livestock owners destroyed wolves to protect the beasts that supplied them with food clothing mobility and wealth The brutality of the campaign soon exceeded wolves misdeeds Wolves menaced property not people but storytellers often depicted the animals as ravenous threats to human safety Subjects of nightmares and legends wolves fell prey not only to Americans thirst for land and resources but also to their deeper anxieties about the untamed frontier Now Americans study and protect wolves and jail hunters who shoot them without authorization Wolves have become the poster beasts of the great American wilderness and the federal government has paid millions of dollars to reintroduce them to scenic habitats like Yellowstone National Park Why did Americans hate wolves for centuries And given the ferocity of this loathing why are Americans now so protective of the animals In this ambitious history of wolves in America and of the humans who have hated and then loved them Jon Coleman investigates a fraught relationship between two species and uncovers striking similarities deadly differences and all too frequently tragic misunderstanding **The New Total War** Bob Seely,2025-07-10 From the revolutionary use of drones to staged coups child abduction and psychological warfare the war in Ukraine is like no other It is a new form of total war combining traditional military force with all the non military tools of the Russian state The 2022 invasion was just the next stage of a conflict that Russia has been fighting since 2005 using all the tactics at its disposal to control Ukraine s politics and wreak havoc Combining over a decade of research astute analysis and powerful stories from the front line and including striking photographs of the people and scenes he encountered along the way Bob Seely has written the authoritative guide to this new form of conflict Travelling extensively throughout Ukraine Seely meets figures such as Panoushka the sniper who continues to fight despite the loss of her fianc and Ksenia the seventeen year old who journeyed through Russia searching for her abducted younger brother Above all Seely argues that understanding Moscow s new total war is critical because Russia considers itself at war with the West as well as Ukraine directing some of the tactics used there against us Insightful gripping and at times moving this book is essential reading for anyone who wants to understand the unconventional methods Russia and other authoritarian states will use to challenge the West for global supremacy and undermine our beliefs power and influence The Dragon Roars Back Suisheng Zhao,2022-11-29 Selected among Foreign Affairs s Best of Books 2024 China is unique in modern world history No other rising power has experienced China s turbulent history in its relations with neighbors and Western countries Its sheer size dominates the region With leader Xi Jinping s political authority unmatched Xi

s sense of mission to restore what he believes is China's natural position as a great power drives the current course of the nation's foreign policy. When China was weak it was subordinated to others. Now China is strong and it wants others to subordinate at least on the issues involving what it regards as core national interests. What are the primary forces and how have these forces driven China's reemergence to global power? This book weaves together complex events, processes, and players to provide a historically in-depth, conceptually comprehensive and up-to-date analysis of Chinese foreign policy transition since the founding of the People's Republic of China (PRC), arguing that transformational leaders with new visions and political wisdom to make their visions prevail are the game-changers. Mao Zedong, Deng Xiaoping, and Xi Jinping are transformational leaders who have charted unique courses of Chinese foreign policy in the quest for security, prosperity, and power. With the ultimate decision-making authority on national security and strategic policies, these leaders have made political use of ideational forces, tailoring bureaucratic institutions, exploiting the international power distribution, and responding strategically to the international norms and rules to advance their foreign policy agendas in the path of China's ascendance.
