Almost Hollywood:

Almost Hollywood Blair Miller,2013-04-10 Blair Miller tells the story of the motion picture industry as it developed in Jacksonville after the turn of the twentieth century Almost Hollywood reveals the meteoric rise of Jacksonville in early silent films Home to over thirty studios employing actors directors and stagehands Jacksonville became touted as the winter film capital of the world by 1915 A myriad of factors contributed to Jacksonville s rise and then fall by the mid 1920s What were the reasons why Jacksonville missed out as the next mecca for filmmaking Blair Miller tells the story through primary sources from that remarkable period *Almost Hollywood, Nearly New Orleans* Vicki Mayer,2017-02-24 A free ebook version of this title is available through Luminos University of California Press s Open Access publishing program Visit www.luminosoa.org to learn more Early in the twenty first century Louisiana one of the poorest states in the United States redirected millions in tax dollars from the public coffers in an effort to become the top location site globally for the production of Hollywood films and television series Why would lawmakers support such a policy Why would citizens accept the policy s uncomfortable effects on their economy and culture Almost Hollywood Nearly New Orleans addresses these questions through a study of the local and everyday experiences of the film economy in New Orleans Louisiana a city that has twice pursued the goal of becoming a movie production capital From the silent era to today s Hollywood South Vicki Mayer explains that the aura of a film economy is inseparable from a prevailing sense of home even as it changes that place irrevocably **Hollywood's Dirtiest Secret** Hunter Vaughan,2019-03-12 In an era when many businesses have come under scrutiny for their environmental impact the film industry has for the most part escaped criticism and regulation Its practices are more diffuse its final product less tangible and Hollywood has adopted public relations strategies that portray it as environmentally conscious In Hollywood s Dirtiest Secret Hunter Vaughan offers a new history of the movies from an environmental perspective arguing that how we make and consume films has serious ecological consequences Bringing together environmental humanities science communication and social ethics Hollywood s Dirtiest Secret is a pathbreaking consideration of the film industry s environmental impact that examines how our cultural prioritization of spectacle has distracted us from its material consequences and natural resource use Vaughan examines the environmental effects of filmmaking from Hollywood classics to the digital era considering how popular screen media shapes and reflects our understanding of the natural world He recounts the production histories of major blockbusters Gone with the Wind Singin in the Rain Twister and Avatar situating them in the contexts of the development of the film industry popular environmentalism and the proliferation of digital technologies Emphasizing the materiality of media Vaughan interweaves details of the hidden environmental consequences of specific filmmaking practices from water use to server farms within a larger critical portrait of social perceptions and valuations of the natural world **Motion Picture Paradise** David Morton,2025-09-16 Highlighting Florida s essential often overlooked role in shaping American film and television Motion Picture Paradise is a

sweeping story of filmmaking in Florida featuring the activities of studios and filmmakers across the peninsula by looking at the many iconic films and television shows shot in the state In the early years of the American film industry Florida was a favorite location for pioneer movie makers and David Morton chronicles the state s importance to producers throughout the next 125 years Often overshadowed by the well known entertainment industries of Hollywood and New York Florida has over time had several major film production centers Morton follows the rise and fall of filmmaking destinations across the state including Jacksonville St Augustine Tampa Bay Orlando and Miami as well as pioneering underwater and location based films shot at Florida s unique natural springs He argues that conflicting policies set by Florida politicians have at various times enticed or pushed away movie and television companies a pattern that has hampered serious investment Using a wealth of source materials Morton offers a comprehensive history that demonstrates how films and television shows made in Florida have influenced the state s sense of identity drawing attention to Florida s underacknowledged role as the third coast in American film history Motion Picture Paradise adds new insights into the state s dramatic social and economic transformations during the twentieth century Media Industries in Crisis Vicki Mayer, Noa Lavie, Miranda

Banks, 2024-04-02 This edited volume offers a global overview of the immediate impacts the COVID pandemic had on local and national film television streaming and social media industries examining in compelling detail how these industries managed the crisis With accounts from the frontlines Media Industries in Crisis provides readers with a stakeholder framework management lessons and urgent commentaries to unpack the nature of crisis management and communications The authors show how these industries have not only survived but often thrive amidst a backdrop of critical national and regional emergencies wars financial meltdowns and climate disasters This international collection featuring case studies from 16 countries examines how media industries managed all of these crises successfully rebranding themselves as essential while making power plays in politics economics and culture The chapters reveal key lessons for the meltdowns tectonic shifts and struggles ahead This collection will be of interest to media and communication students particularly those focused on media industries crisis communications and management as well as to practitioners working in media industries

Producing Precarity Curtis Marez, 2025-08-26 The hidden cost of TV production for communities of color Producing Precarity is a long overdue examination of the television industry s practice of offshoring production to impoverished sites within the US The author Curtis Marez focuses on state efforts to attract film and TV producers to poor places with tax incentives discounted public lands and subsidized infrastructures He argues that these efforts result in the redistribution of wealth from poor people of color Indigenous people and other taxpayers to Los Angeles based media makers while also diverting money that could be used for education and health care to the wealthy The popular series produced in these places such as Breaking Bad The Watchmen Lovecraft County The Walking Dead and Vida are praised by critics and awards organizations and highlighted by streaming services for challenging genre casting and narrative conventions However many

of these shows rely on racialized and gendered low wage labor for production and diversity equity and inclusion representations can sometimes perpetuate repression such as depicting police as diversity champions Producing Precarity examines how contemporary streaming shows from these areas promote racial inequality in ideology and content as well as materially through their local production methods and perceptually through streaming distribution modes that discourage viewers from understanding how TV is made Marez also provides examples of local resistance including movements against a police training center and a film studio in Atlanta as well as anti gentrification movements in Latinx neighborhoods of LA
