Radical Alternatives to Prison and the Penal Lobby Mick Ryan,1978 Incarceration and Its Alternatives in 20th Century America David J. Rothman,1979 Alternatives to Incarceration Ebony L. Ruhland,2025-09-19 Mass incarceration has been an ongoing problem in the United States There have been several research studies that explain the causes and consequences of mass incarceration A major contributor to incarceration is what happens in community supervision In several states many prison admissions result from technical violations from community supervision Historically alternatives to incarceration were developed to reduce prison populations and decrease the fiscal cost of incarceration They were to function as a diversion away from prison Alternatives also keep people in the community while holding them accountable and protecting community safety Yet given the high violations and revocations rather than serving as an alternative to incarceration community supervision becomes a delayed prison sentence The book underscores the importance of ongoing research and the need for effective strategies to reduce violations and revocations There is a clear need for more research to explore what works in reducing violations and revocations including the factors that contribute to these issues This ongoing exploration is crucial for the continued development and improvement of community corrections Chapters in this book address how barriers such as mental illness COVID 19 and financial constraints may impede success on supervision and highlight in the findings ways to increase success despite these barriers Further two chapters provide results on two commonly used strategies in community corrections risk assessments and electronic monitoring The chapter s findings build on previous works and provide recommendations for policy and research This book advances knowledge on reducing violations and revocations and increasing success in community supervision It was originally published as a special issue of Corrections Policy Practice and Research

Alternatives to Prison Antony A. Vass, 1990 This comprehensive and accessible textbook outlines and critically appraises alternatives to custody At a time of escalating prison costs severe overcrowding and rising recidivism rates punishment in the community is widely seen as the means by which these problems can be solved How valid is this claim Vass traces the development of the prison its recurrent crises and the search for workable alternatives Can alternative punishments succeed in diverting offenders from imprisonment or will they inevitably be used as extra punitive measures by the court How will they be enforced What will their effect be on both offenders and the community at large Drawing on international experiences of diverting offenders from custody through means such as tagging and electronic monitoring he warns that in the absence of a coherent criminal justice policy these measures are unlikely to provide a solution He assesses the challenges faced by probation and welfare services in having to develop punishment in the community Among other alternatives including tagging and probation day centres Vass also presents case study accounts drawing on firsthand experience of a community service order Always engaging and lively Alternatives to Prison will be an essential textbook for students of sociology social policy social work criminology youth and community work Practitioners and policymakers in criminal justice probation and social work will also benefit from its timely and important analysis and overview of the situation

Prison by Any Other Name Maya Schenwar, Victoria Law, 2020-07-21 A crucial indictment of widely embraced alternatives to incarceration that exposes how many of these new approaches actually widen the net of punishment and surveillance But what does it mean really to celebrate reforms that convert your home into your prison Michelle Alexander from the foreword Electronic monitoring Locked down drug treatment centers House arrest Mandated psychiatric treatment Data driven surveillance Extended probation These are some of the key alternatives held up as cost effective substitutes for jails and prisons But many of these so called reforms actually widen the net weaving in new strands of punishment and control and bringing new populations who would not otherwise have been subject to imprisonment under physical control by the state As mainstream public opinion has begun to turn against mass incarceration political figures on both sides of the spectrum are pushing for reform But though they re promoted as steps to confront high rates of

imprisonment many of these measures are transforming our homes and communities into prisons instead In *Prison by Any Other Name* activist journalists Maya Schenwar and Victoria Law reveal the way the kinder gentler narrative of reform can obscure agendas of social control and challenge us to question the ways we replicate the status quo when pursuing change A foreword by Michelle Alexander situates the book in the context of criminal justice reform conversations Finally the book offers a bolder vision for truly alternative justice practices

Inside Prisons James B. Jacobs, 1986

The Prison Experience Merry Morash, Pamela J. Schram, 2002-12-02

Confined to an institution and further burdened by patriarchal assumptions and stereotypes incarcerated women struggle to retain a sense of self worth for themselves and often for their children Scholarship on the subject typically has either ignored or trivialized the role of gender as an organizing feature of society The result is a lack of emphasis on the role played by gender in the lives of women in a correctional setting In this theoretically informed and empirically grounded textbook Morash and Schram explain the realities of prison life for women from a feminist perspective The hope for reform begins with an informed public so that a system premised on deterrence and punishment can also offer opportunities for rehabilitation
