## **Barracuda Pilot:**

**Barracuda Pilot** Dunstan Hadley, 1992 En engelsk pilots beretning om sine oplevelser og operationer som Barracuda pilot i Fleet Air Arm under 2 verdenskrig **Heroes All** Steve Bond, 2010-10-19 This WWII history shares the personal stories of frontline airmen from all sides of the conflict gathered through original interviews Aviation historian Steve Bond has spent years interviewing veterans of World War II He recorded the stories of former airmen and crewmembers who shared the same pieces of sky at the same time The project brought together British and German German and Russian British and Italian American and German sometimes literally In **Heroes All** Bond presents the stories of these veterans some of whom are household names with annotations and overviews providing historical context This is not a book about the rights and wrongs of war nor the strategies of the military commanders It is about the experiences and feelings of those on the front line This volume includes stories and recollections from veterans of the Air Transport Auxiliary British Army Fleet Air Arm Italian air force Luftwaffe Royal Air Force Royal Canadian Air Force and Navy Soviet air force US Army US Army Air Force US Navy and other groupings *The Eastern Fleet and the Indian Ocean, 1942-1944* Charles Stephenson, 2022-04-06 A study of the British Royal Navy's activities in the Indian Ocean during World War II led by Admiral Sir James Somerville The story of the British Eastern Fleet which operated in the Indian Ocean against Japan has rarely been told Although it was the largest fleet deployed by the Royal Navy prior to 1945 and played a vital part in the theatre it was sent to protect it has no place in the popular consciousness of the naval history of the Second World War So Charles Stephenson's deeply researched and absorbing narrative gives this forgotten fleet the recognition it deserves British pre war naval planning for the Far East is part of the story as is the disastrous loss of the battleship Prince of Wales and battlecruiser Repulse in 1941 but the body of the book focuses on the new fleet commanded by Admiral Sir James Somerville and its operations against the Japanese navy and aircraft as well as Japanese and German submarines Later in the war once the fleet had been reinforced with an American aircraft carrier it was strong enough to take more aggressive actions against the Japanese and these are described in vivid detail Charles Stephenson's authoritative study should appeal to readers who have a special interest in the war with Japan in naval history more generally and Royal Navy in particular Praise for *The Eastern Fleet and the Indian Ocean 1942 1944* This meticulously researched outstandingly clear well written and absorbing account is long overdue and will most likely become a standard work The text is most helpfully supported by over 80 pages of detailed end notes referenced to each chapter and a detailed index This is not only a book for naval historians but also for anyone with an interest in the War in the Indian Ocean region Highly recommended Military Historical Society I enjoyed this book it gives us an account of an often neglected part of the war at sea and of the achievements of Admiral Somerville who kept his fleet intact in the face of a potentially overwhelming opponent then was willing to acknowledge that his fleet needed to improve massively before it could take on the Japanese Dr John Rickard author and webmaster of the Military History Encyclopedia
