Montanism Christine Trevett, 1996 This study of Montanism is the first in English since 1878 It takes account of a great deal of scholarship of the nineteenth and twentieth centuries and refers to the epigraphical evidence Dr Trevett questions some of the most cherished assumptions about Montanism She covers the origins development and slow demise using sources from Asia Minor Rome North Africa and elsewhere and pays particular attention to women within the movement The rise of Montanism was important in the history of the early church This prophetic movement survived for centuries after its beginnings in the second half of the second century and was a challenge to the developing catholic tradition Christine Trevett looks at its teachings and the response of other Christians to it To an unusual degree Montanism allowed public religious activity and church office to women

Special consideration is given to the concurrent versions of Judas death in Matthew 27 3 10 and the writings of Papias
