

“ALL THE TIME WE THINK WE ARE THE LION. IN THE END, THE LION IS GOD”

Christianity Rediscovered is more than just a classic missionary story. It is also a profound challenge, a call to a radical redefinition of what we mean when we talk about mission – as relevant to today’s church as it was when it was first written.

For Vincent Donovan, his experiences amongst the Masai in East Africa meant a total reappraisal of the meaning of his faith, and a rediscovery of his Christianity. Written with moving simplicity, Donovan’s account continues to represent a provocative challenge to all those engaged in issues of evangelism and culture.

Bringing this vital work to a new generation, this edition includes a foreword by **Chris Lane**, author of *Ordinary Miracles*.

*“If you’re grappling with the relationship between faith and culture *Christianity Rediscovered* is one of the most important books you could possibly read. I recommend it to people all the time.”*

Pete Greig, founder of the 24/7 Prayer movement

“Culture is not the enemy of the Gospel but the very means by which we encounter the Incarnation... I hope that this new edition of a famous classic will start a much-needed conversation about the purpose and content of our Gospel proclamation.”

Philip North, Bishop of Bumbley

“This much loved classic inspires us to tune into the whisper of His Spirit who is endlessly creative across cultures and time, as He calls His beloved children home.”

Jill Duff, Bishop of Lancaster

Christianity Rediscovered:

Christianity Rediscovered Vincent Donovan, 2019-05-30 *Christianity Rediscovered* is more than just a classic missionary story. It is also a profound challenge, a call to a radical redefinition of what we mean when we talk about mission as relevant to today's church as it was when it was first written. For Vincent Donovan, his experiences amongst the Masai in East Africa meant a total reappraisal of the meaning of his faith and a rediscovery of his Christianity. Written with moving simplicity, Donovan's account continues to represent a provocative challenge to all those engaged in issues of evangelism and culture. Bringing this vital work to a new generation, this popular edition includes a foreword by Chris Lane, author of *Ordinary Miracles*.

Christianity Rediscovered Vincent J. Donovan, 2014-07-24 This profound and thought-provoking book is one of the classics of modern missionary writing. Superficially just a good missionary story, it actually says much more about issues such as the meaning of the eucharist and the method and content of evangelism. *Christianity Rediscovered* Donovan, Vincent J., 2019-10-29 This profound and thought-provoking book is one of the classics of modern missionary writing. Superficially just a good missionary story about how one man brought a number of groups of Masai people in East Africa to Christian faith, it is something much more than that. For in what the author says about the method and content of evangelism, the meaning of the eucharist, and the nature of ministry, we are led back to the question of our understandings of the mission of the church in all its contexts. For Donovan, his experiences in Africa meant a total reappraisal of the meaning of his faith and therefore a rediscovery of his Christianity. His book, which is written with moving simplicity, continues to represent a provocative challenge to all those engaged in issues of evangelism and multiculturalism. **Marakwet** Samuel K.

Elolia, 2024-04-15 This book attempts to provide an ethnography of the Marakwet and its encounter with colonizers and missionaries. The core of the book concerns the formation of the Marakwet person through the rites of passage. Indeed, cultural education is critical in establishing a socially mature identity. By virtue of repetition, humans connect to the past and create a continuum. Also through rituals, the world is no longer an opaque mass of objects arbitrarily thrown together but a living cosmos that can be intelligible and significant. It explains why things exist and to what ends. At the same time, through rituals, new ideas are given new interpretations. The missionary colonizing project unsuccessfully tried to dislodge such traditions. The African tradition is the context from which most Christians come and to which many still practice to some degree. It is therefore necessary for both Marakwet and Christian tradition to interact. The book highlights the concept of inculturation as a viable resource in helping Christianity engage the culture with minimal disruptions. *A History of Christian Conversion* David W. Kling, 2020-05-05 Conversion has played a central role in the history of Christianity. In this first in-depth and wide-ranging narrative history, David Kling examines the dynamic of turning to the Christian faith by individuals, families, and people groups. Global in reach, the narrative progresses from early Christian beginnings in the Roman world to Christianity's expansion into Europe, the Americas, China, India, and Africa. Conversion is often associated with a

particular strand of modern Christianity evangelical and a particular type of experience sudden overwhelming However when examined over two millennia it emerges as a phenomenon far more complex than any one dimensional profile would suggest No single unitary paradigm defines conversion and no easily explicable process accounts for why people convert to Christianity Rather a multiplicity of factors historical personal social geographical theological psychological and cultural shape the converting process A History of Christian Conversion not only narrates the conversions of select individuals and peoples it also engages current theories and models to explain conversion and examines recurring themes in the conversion process divine presence gender and the body agency and motivation testimony and memory group and self identity authentic and nominal conversion and modes of communication Accessible to scholars students and those with a general interest in conversion Kling s book is the most satisfying and comprehensive account of conversion in Christian history to date this major work will become a standard must read in conversion studies [Contemporary Mission Theology](#) Gallagher, Rogert L., Hertig, Paul, 2017-02-16 A resource for the classroom that specifically addresses the missiological issues of the twenty first century this collection in honor of Charles E Van Engen features contributions from practically all the leading lights of the missiology world Scholars including Stephen Bevans Roger Schroeder van Thanh Nguyen Mary Motte Gerald Anderson Scott Sunquist and many others offer their insights and reflections focusing on the impact of cultural and demographic changes on the nature and purpose of Christian mission Publisher [The State of Missiology Today](#) Charles E. courses on theological method and as a handbook used by missionaries and other Christians concerned with the Christian tradition's understanding of itself in relation to culture. First published in 1992 and now in its seventh printing in English with translations underway into Spanish, Korean, and Indonesian. Bevans's book is a judicious examination of what the terms contextual theology and to contextualize mean. In the revised and expanded edition, Bevans adds a counter-cultural model to the five presented in the first edition: the translation, the anthropological, the praxis, the synthetic, and the transcendental model. This means that readers will be introduced to the way in which figures such as Stanley Hauerwas, John Milbank, Lesslie Newbigin, and occasionally Pope John Paul II need to be taken into account. The author's revisions also incorporate suggestions made by reviewers to enhance the clarity of the original three chapters on the nature of contextual theology and the five models. *The Atlantic Monthly*, 1893 **Atlantic Monthly**, 1893 *The Christian Science Journal*, 1928
