literary sources We can however find the voices of the underprivileged by turning to the material detritus of ancient cultures that reflects their social history Dining at the End of Antiquity brings together the material culture and literary traditions of Romans at the table to reimagine dining culture as an integral part of Roman social order Through a careful analysis of the tools and equipment of dining Nicholas Hudson uncovers significant changes to the way different classes came together to share food and wine between the fourth and sixth centuries Reconstructing the practices of Roman dining culture Hudson explores the depths of new social distances between the powerful and the dependent at the end of antiquity
