Dirty Realism:

The Dirty Realism Duo Michael Hemmingson, 2008-01-01 CHARLES BUKOWSKI RAYMOND CARVER Charles Bukowski and Raymond Carver were credited as the fathers of the Dirty Realism genre in the 1980s branching out from minimalism the stripping of fiction down to the least amount of words and a concentration on the subject's view of the object. The characters are usually run of the mill every day people the lower and middle class worker the unemployed the alcoholic the beaten down by life. In this experimental monograph in the vein of D H Lawrence's *Studies in Contemporary American Fiction* avant pop literary critic Michael Hemmingson examines these dirty works of Bukowski and Carver through the lens of late twentieth century American culture and the sociological observation of the self questioning the authority of the I in fiction and poetry and its relation to the eye's gaze of the words on a page. Hemmingson offers close readings of selected texts deconstructing iconic works by Bukowski and Carver to point out the elements of dirty realism and mastery of the language of the common folk proving that these two writers are an institution in American literature. MICHAEL HEMMINGSON has written over 25 books of literary western SF horror noir autobiography erotica narrative journalism gonzo journalism cultural anthropology critical theory critifiction and ethnography. He lives and works in Southern California.

Succeeding Postmodernism Mary K. Holland, 2013-04-25 While critics collect around the question of what comes after postmodernism this book asks something different about recent American fiction what if we are seeing not the end of postmodernism but its belated success. *Succeeding Postmodernism* examines how novels by DeLillo Wallace Danielewski Foer and others conceptualize threats to individuals and communities posed by a poststructural culture of mediation and simulation and possible ways of resisting the disaffected solipsism bred by that culture. Ultimately it finds that twenty first century American fiction sets aside the postmodern problem of how language does or does not mean in order to raise the reassuringly retro question of what it can and does mean. It finds that novels today offer language as solution to the problem of language. Thus it suggests a new way of reading antihumanist late postmodern fiction and a framework for understanding postmodern and twenty first century fiction as participating in a long and newly enlivened tradition of humanism and realism in literature.

American Literature in Transition, 1980-1990 D. Quentin Miller,2017-12-28 History has not been kind to the 1980s The decade is often associated with absurd fashion choices neo Conservatism in the Reagan Bush years the AIDS crisis Wall Street ethics and uninspired television film and music Yet the literature of the 1980s is undeniably rich and lasting American Literature in Transition 1980 1990 seeks to frame some of the decade's greatest achievements such as Toni Morrison's monumental novel Beloved and to consider some of the trends that began in the 1980s and developed thereafter including the origins of the graphic novel prison literature and the opening of multiculturalism vis vis the canon wars This volume argues not only for the importance of 1980s American literature but also for its centrality in understanding trends and trajectories in all contemporary literature against the broader background of culture This volume serves as both an introduction and a deep consideration of the literary culture of our most maligned decade
