Desert Solitaire:

Desert Solitaire Edward Abbey, 1985-01-12 Rough tough combative a passionately felt deeply poetic book Edwin Way Teale The New York Times Book Review This is not primarily a book about the desert writes Edward Abbey in his introduction In recording my impressions of the natural scene I have striven above all for accuracy since I believe that there is a kind of poetry even a kind of truth in simple fact But the desert is a vast world an oceanic world as deep in its way and complex and various as the sea Language makes a mighty loose net with which to go fishing for simple facts when facts are infinite If a man knew enough he could write a whole book about the juniper tree Not juniper trees in general but that one particular juniper tree which grows from a ledge of naked sandstone near the old entrance to Arches National Monument What I have tried to do then is something a bit different Since you cannot get the desert into a book any more than a fisherman can haul up the sea with his nets I have tried to create a world of words in which the desert figures more as medium than as material Not imitation but evocation has been the goal *Desert Solitaire* Edward Abbey, 2011 First published in 1968 Through prose that is by turns passionate and poetic Abbey reflects on the condition of our remaining wilderness and the future of a civilization that cannot reconcile itself to living in the natural world as well as his own internal struggle with morality As the world continues its rapid development Abbey's cry to maintain the natural beauty of the West remains just as relevant today as when this book was written

Bedrock and Paradox David M. Pozza, 2006 Rarely does an author so thoroughly entertain and anger his readers as Edward Abbey does This book focuses on Abbey's aesthetic and philosophy of paradox as they are reflected in his writings and explores his literary technique of blurring traditional genres regarding fiction and nonfiction Until now no study has sufficiently treated the full complexity of Abbey's writing throughout his career making this particular work not only original but important

Conserving Words Daniel J. Philippon, 2004 *Conserving Words* looks at five authors of seminal works of nature writing who also founded or revitalized important environmental organizations Theodore Roosevelt and the Boone and Crockett Club Mabel Osgood Wright and the National Audubon Society John Muir and the Sierra Club Aldo Leopold and the Wilderness Society and Edward Abbey and Earth First These writers used powerfully evocative and galvanizing metaphors for nature metaphors that Daniel J Philippon calls conserving words frontier Roosevelt garden Wright park Muir wilderness Leopold and utopia Abbey Integrating literature history biography and philosophy this ambitious study explores how conserving words enabled narratives to convey environmental values as they explained how human beings should interact with the nonhuman world

The Ecocriticism Reader Cheryll Glotfelty, Harold Fromm, 1996 This book is the first collection of its kind an anthology of classic and cutting edge writings in the rapidly emerging field of literary ecology Exploring the relationship between literature and the physical environment literary ecology is the study of the ways that writing from novels and folktales to U S government reports and corporate advertisements both reflects and influences our interactions with the natural world *The Norton Book of Nature*

Writing Robert Finch, John Elder, 1990 W W Norton is pleased to announce that The Norton Book of Nature Writing is now available in a paperback college edition New Westers Michael L. Johnson, 1996 These New Westers Johnson reveals line dance and two step listen to Garth Brooks and George Strait drink beer from long neck bottles wear clothes ordered from Sheplers watch rodeo on ESPN play Wild West arcade games eat fajitas and tacos in stuccoed Mexican cafes collect Western art and Native American crafts and vacation in and move to the West New Westers rewrite the history and biography of the West They reimagine the West in Cowboy sagas and poetry Native American novels Mexican American drama nature writing revisionist films eclectic visual artwork and neo traditional music They flock to movies like *Thelma and Louise* *Unforgiven* and *Dances with Wolves* watch mini series like *Lonesome Dove* and read bestsellers like *The Crossing* and *All The Pretty Horses* New Westers are men and women who may or may not have ever hitched up a horse but who crave connection with the West At the end of a century of urbanization technological change and cultural confusion they seek a more natural home a fuller and wider sense of place and a deeper and more colorful personal identity They also want to revive the dream of the mythic West but on different terms They overrun the Old West and yet strive to preserve it raising troubling new concerns about the differences between the mythic and the real between traditional and contemporary cultural influences

Johnson, 2007 Americans have had an enduring yet ambivalent obsession with the West as both a place and a state of mind Michael L Johnson considers how that obsession originated how it has determined attitudes toward and activities in the West and how it has changed over the centuries Telos, 2007 *Devil's Bargains* Hal Rothman, 1998 The West is popularly perceived as America's last outpost of unfettered opportunity but twentieth century corporate tourism has transformed it into America's land of opportunism

From Sun Valley to Santa Fe towns throughout the West have been turned over to outsiders and not just to those who visit and move on but to those who stay and control. Although tourism has been a blessing for many bringing economic and cultural prosperity to communities without obvious means of support or allowing towns on the brink of extinction to renew themselves the costs on more intangible levels may be said to outweigh the benefits and be a devil's bargain in the making. Hal Rothman examines the effect of twentieth century tourism on the West and exposes that industry's darker side. He tells how tourism evolved from Grand Canyon rail trips to Sun Valley ski weekends and Disneyland vacations and how the post World War II boom in air travel and luxury hotels capitalized on a surge in discretionary income for many Americans combined with newfound leisure time. From major destinations like Las Vegas to revitalized towns like Aspen and Moab Rothman reveals how the introduction of tourism into a community may seem innocuous but residents gradually realize as they seek to preserve the authenticity of their communities that decision making power has subtly shifted from the community itself to the newly arrived corporate financiers. And because tourism often results in a redistribution of wealth and power to outsiders observes Rothman it represents a new form of colonialism for the region. By depicting the nature of tourism in the American West through true stories of places and individuals that have felt its grasp Rothman doesn't just document the effects of tourism but provides us with an enlightened explanation of the shape these changes take. Deftly balancing historical perspective with an eye for what's happening in the region right now his book sets new standards for the study of tourism and is one that no citizen of the West whose life is touched by that industry can afford to ignore. **The Mythic West in Twentieth-century America** Robert G. Athearn, 1986 Briefly describes life in the West and discusses the ephemeral nature of the region western towns the tourist industry agriculture fiction and the ecology movement.

Collecting Nature Andrew G. Kirk, 2001 Finds in the history of Denver's Conservation Library a microcosm of the growth of the environmental movement as a whole. [The French Tragi-comedy](#) Henry Carrington Lancaster, 1907

Yellowstone and the Snowmobile Michael J. Yochim, 2009 The first scholarly study of winter use in any national park examines the history of the conflict between the National Park Service and various interest groups over snowmobile use in Yellowstone a highly politicized value driven battle that has taken a serious toll on the NPS's ability to protect the park.

Islands Under Siege John Carter Freemuth, 1991 A study of threats to national parks noise and water pollution smog industrial spills and acid rain from a political perspective. The focus is on two cases the proposed mining of the tar sands of south central Utah near Canyonlands National Park and poor air quality in several western parks caused by pollution. Annotation copyrighted by Book News Inc Portland OR. **Projecting Paranoia** Ray Pratt, 2001 A wide ranging and idiosyncratic look at sixty years of politics and film that uncovers how American movies have mirrored and even challenged anxieties and paranoid perceptions embedded in American society since the start of the Cold War. The first book to take a sweeping look at 60 years of film and analyze them thematically. **Big Sky Rivers** Robert Kelley Schneiders, 2003 To frame

his story Schneiders goes back to the nineteenth century journals of fur traders and settlers and in the record of flora fauna floods and human activity he finds evidence of rapid and disruptive change Bison once had the greatest influence on the land and Schneiders depicts an original bison and Indian trail networks on which were overlaid the first torts and towns and then the railroads highways and reservoirs that reconfigured the region forever *A History of French Dramatic Literature in the Seventeenth Century ...* Henry Carrington Lancaster, 1929
