**Desert Airforce** Philip D. Chinnery,1989 Presents hundreds of color photographs of old aircraft currently in store at Tucson s Davis Monthan Air Force Base with accompanying descriptive captions U.S. Air Services ,1919 **Revolt in the Desert** Thomas Edward Lawrence,1927 Abridgement of the author s Seven pillars of wisdom Illustrated lining papers Includes index *Rommel's Desert Campaigns, February 1941-September 1942: A Study In Operational Level Weakness [Illustrated Edition]* Major Donald E. Kirkland,2014-08-15 Includes the War in North Africa Illustration Pack 112 photos illustrations and 21 maps This study is a historical analysis to determine why Rommel s tactical success on the battlefield could not accomplish strategic objectives in North Africa Rommel s operations are reviewed from his arrival in North Africa in February 1941 through his last offensive to destroy the British Eighth Army at Alamein in August September 1942 The study compares his ability to conduct tactical operations with his apparent inability to plan and execute actions at the operational level of war Rommel s problems with operational planning are addressed within the scope of campaign planning principles set forth in FM 100 5 Operations Final Draft His planning is expressly judged on how he shaped his operational plans by using the concepts of aims resources constraints and restrictions to conform to strategic guidance Rommel s tactical execution is contrasted with his operational performance This comparison is based on the AirLand Battle tenets of agility initiative depth and synchronization The study concludes that Rommel s failure lies in planning operations that exceeded his resources and conducting needless operations that resulted in the loss of the initiative at the decisive point Rommel s plans exceeded the strategic objectives desired by the theater strategists His execution was ultimately defeated by his quest for tactical victories without regard to how they contributed to achieving campaign objectives Rommel s weakness at the operational level led to failure to sequence tactical victories to achieve campaign goals This failure illustrates the importance of understanding how operational art orchestrates tactical activities to achieve strategic objectives within a theater of operations **Air University Library Index to Military Periodicals** ,1990 Air Force ,1944 *Desert Airforce* Philip D. Chinnery,1989 Flight ,1923 *Air Force; the Official Service Journal of the U.S. Army Air Forces* ,1940 *Men of the Desert Air Force* Chaz Bowyer,2025-11-24 A gripping real life account of the brave pilots who flew over the deserts of North Africa and the Mediterranean between 1940 and 1943 Perfect for readers of Patrick Bishop John Nichol and Paul Brickhill The Desert Air Force DAF was formed in 1941 by Air Marshal Sir Arthur Tedder created as a fast mobile and highly effective tactical air force to support the hard pressed Allied armies fighting Axis forces in North Africa and the eastern Mediterranean The outcome of these brutal desert campaigns would prove vital to the Allies ultimate victory and the downfall of Hitler and Mussolini s imperial ambitions In this fascinating book Chaz Bowyer shines a light on the characterful courageous pilots who made up the DAF men who displayed extraordinary skill and determination in one of the most inhospitable theatres of war Drawing on vivid contemporary records and eyewitness accounts Bowyer reveals the

backgrounds of these aviators the battles they fought and their remarkable achievements in the face of relentless enemy opposition Between 1940 and 1943 the Italian Regia Aeronautica and Germany's Luftwaffe waged a fierce aerial campaign against the British who entered the fight under strength ill equipped and flying outdated aircraft By 1942 the DAF had become a formidable force of 29 squadrons drawn from the RAF Royal Australian Air Force South African Air Force United States Army Air Force and other Allied nations a true commonwealth of men dedicated to the cause of human freedom as Bowyer movingly describes

**Blitzkrieg to Desert Storm** Robert Michael Citino, 2004 When Germany launched its blitzkrieg invasion of France in 1940 it forever changed the way the world waged war Although the Wehrmacht ultimately succumbed to superior Allied firepower in a two front war its stunning operational achievement left a lasting impression on military commanders throughout the world even if their own operations were rarely executed as effectively Robert Citino analyzes military campaigns from the second half of the twentieth century to further demonstrate the difficulty of achieving decisive results at the operational level Offering detailed operational analyses of actual campaigns Citino describes how UN forces in Korea enjoyed technological and air superiority but found the enemy unbeatable provides analyses of Israeli operational victories in successive wars until the Arab states finally grasped the realities of operational level warfare in 1973 and tells how the Vietnam debacle continued to shape U S doctrine in surprising ways Looking beyond major power conflicts he also reveals the lessons of India's blitzkrieg like drive into Pakistan in 1971 and of the senseless bloodletting of the Iran Iraq War Citino especially considers the evolution of U S doctrine and assesses the success of Desert Storm in dismantling an entrenched defending force with virtually no friendly casualties He also provides one of the first scholarly analyses of Operation Iraqi Freedom showing that its plan was curiously divorced from the realities of military history grounded instead on nebulous theories about expected enemy behavior Throughout Citino points to the importance of mobility especially mobilized armor in modern operational warfare and assesses the respective roles of firepower training doctrine and command and control mechanisms Brimming with new insights Citino's study shows why technical superiority is no guarantee of victory and why a thorough grounding in the history of past campaigns is essential to anyone who wishes to understand modern warfare **Blitzkrieg to Desert Storm** provides that grounding as it addresses the future of operational level warfare in the post 9 11 era

Crane, 1993 As the might and capabilities of American airpower have grown during the last 60 years so has the controversy about its use in the intentional and indiscriminate wartime bombardment of civilians In *Bombs, Cities, and Civilians* Conrad Crane maintains that for the most part American airmen in World War II remained committed to precision bombing doctrine Instead of attacking densely populated urban areas simply

to erode civilian morale Army Air Forces adhered to a policy that emphasised targeting key industrial and military sites He demonstrates that while the British Germans and Japanese routinely conducted indiscriminate aerial bombardment of enemy cities American airmen consistently stayed with daylight raids against carefully selected targets especially in Europe Daytime precision missions were usually far more dangerous than night area attacks but such Army Air Forces tactics increased bombing efficiency and also reduced the risk of civilian casualties *Military Operations, Egypt & Palestine, from June 1917 to the End of the War: From June 1917 to the end of the war. **The Desert Training Center/California-Arizona Maneuver Area, 1942-1944** Matt C. Bischoff,2000 With the German Afrika Korps driving across the North African desert with impunity in 1941 and 1942 the U S Army realized that it might be called upon to assist its British ally in the fight against the Germans and Italians Egypt along with the strategic Suez Canal and the Middle East in general was in danger of being lost to the Axis powers It became imperative that the Axis be expelled from North Africa The U S Army however had never fought a large scale war in a desert environment As a result the Army Ground Forces designated more than 18 000 square miles of the Arizona and California desert as an armored training facility Maj Gen George S Patton Jr was placed in charge of establishing this facility and served as its first commanding officer The facility would thereafter reflect his tough image and relentless training doctrines
