Alchemy Unveiled:

Alchemy Unveiled Jean Baptiste van Helmont, Johannes Helmond, 1997-04 Alchemy is the last and highest knowledge which can be committed to paper in the form of letters Beyond that another language is required one which cannot be committed to paper Most people confuse iatrochemistry with Alchemy When an Alchemist speaks of Mercury Sulphur and Salt he speaks of his spiritual astral and physical bodies not of the elements Alchemy Unveiled describes the tribulations that a human being has to pass through in order to purify these three bodies However to achieve the level of an Alchemist requires daily study and strict daily mental astral and physical exercises for many lifetimes Many individuals have already achieved this goal The purpose is not to convert a lower metal into gold but to change an impure body into a pure body namely the spirit soul and physical bodies An Alchemist is one who has passed the levels of a magician spheric magician and Kabbalist All these levels can be achieved without the help of a teacher These Western writings are by those who have reached levels higher than an Alchemist They have given us these writings philosophically and practically These sciences cannot be learned intellectually but have to be approached with a clean heart One s character has to be completely free of all negative characteristics And for the one who embarks on this journey the first thing to be learned is what a positive characteristic is and what a negative characteristic is And the reader will be surprised what negative characteristics are because many of these characteristics are considered by most as positive Alchemy Unveiled will lead the reader on a journey of a complete purification of the body soul and spirit and for the first time the mystery of the Philosopher s Stone is openly explained Much has been written about this subject most of which is and remains incomprehensible for most Many of the alchemical writings available were and are based on error and point the way to the wrong path This is mainly due to the fact that many individuals do this for personal material gain Alchemy Unveiled begins with an explicit explanation of the symbolic language of Alchemy which is a must for any further clear understanding of the entire text of this book It explains the errors of many who were not in possession of the true knowledge regarding this art It takes the reader on a journey through the ancient mysteries of Initiation the Osiris mysteries the Eleusian Mysteries the Mysteries of Israel the Christ Mysterium and the Mystery of Alchemy *ALCHEMY UNVEILED* Johannes Helmond, 2021-02-06 [Alchemy Unveiled](#) Jean Baptiste van Helmont, Gerhard Hanswille, Deborah Brumlich, 1991-01-01 **A Dictionary of Western Alchemy** Jordan Stratford, Jeffrey S. Kupperman, 2014-08-22 From Arabic al kimia of Egypt and old Egyptian keme black fertile soil alchemy is the ancient science of elements and interactions in both the natural and the spiritual realms Spanning 2 500 years and informed by Hermetic and Neoplatonist influences it has been practiced in the classical Greco Roman world medieval Europe and the medieval Middle East and Orient and up to the present in esoteric circles Alchemists have three main pursuits the transmutation of base metals into gold by means of the Lapis Philosophorum the Philosopher s Stone the concoction of the Elixir of Life a universal medicine the reconciliation between spirit and matter and direct knowledge of the Divine This

concise dictionary of alchemy provides clear access to one of the major roots of Western esoteric thought. Subjects include alchemical processes and procedures, the natural elements and apparatus used, major practitioners and philosophers, and concepts and beliefs. Distinguishing this guide from similar ones is the addition of etymology connecting the language of alchemy to its Latin, Greek, and Arabic sources. Symbolic pictographs accompany half of the over four hundred entries, and a fascinating illustration from the long tradition of alchemical art introduces each letter of the alphabet. Most important is the author Jordan Stratford's unique perspective as both a modern Gnostic priest and a Freemason. He also brings to bear extensive knowledge of the depth psychology of C. G. Jung, who based his key concept of individuation on the premise that what the ancient alchemists truly sought was inner transformation.
