New Perspectives on Moral Change Cecilie Eriksen,Nora Hämäläinen,2022-08-12 The world we live in is constantly changing Climate change transforming gender conceptions emerging issues of food consumption novel forms of family life and technological developments are altering central areas of our forms of life This raises questions of how to cope with and understand the moral changes implicit in such alterations This volume is the first to address moral change as such It brings together anthropologists and philosophers to discuss how to study and theorize the change of norms concepts emotions moral frameworks and forms of personhood

Climate Change, Moral Panics and Civilization Amanda Rohloff,2018-07-17 In recent years interest in climate change has rapidly increased in the social sciences and yet there is still relatively little published material in the field that seeks to understand the development of climate change as a perceived social problem This book contributes to filling this gap by theoretically linking the study of the historical development of social perceptions about nature and climate change with the figurational sociology of Norbert Elias and the study of moral panics By focusing sociological theory on climate change this book situates the issue within the broader context of the development of ecological civilizing processes and comes to conceive of contemporary campaigns surrounding climate change as instances of moral panics civilizing offensives with both civilizing and decivilizing effects In the process the author not only proposes a new approach to moral panics research but makes a fundamental contribution to the development of figuration sociology and the understanding of how climate change has developed as a social problem with significant implications regarding how to improve the efficacy of climate change campaigns This highly innovative study should be of interest to students and researchers working in the fields of sociology environment and sustainability media studies and political science

Moral Order and Progress Samuel Alexander,1889

Moral Crisis in the Ottoman Empire Çigdem Oguz,2021-05-20 To what extent did a perceived morality crisis play a role in the dramatic events of the last years of the Ottoman Empire Beginning in the late nineteenth century when some of the Ottoman elites began to question the moral climate as evidence for the losses facing the empire this book shows that during the course of World War I many social economic and political problems were translated into a discourse of moral decline ultimately making morality a contested space between rival ideologies identities and intellectual currents Examining the primary journals and printed sources that represented the various constituencies of the period it fills important gaps in the scholarship of the Ottoman experience of World War I and the origins of Islamism and secularism in Turkey and is essential reading for social and intellectual historians of the late Ottoman Empire

Between Fixed and Fickle Audun

Dahl,2026-04-14 Killing and cheating seem obviously wrong yet such moral infractions are common So is morality selfish or irrational No says psychologist Audun Dahl Moral views are not permanently fixed but neither are they fickle Research shows that when people alter their moral views they do so because they see good reasons for change **Engaging Reason** Joseph Raz,2000-01-13 Engaging Reason offers a penetrating examination of a set of fundamental questions about human thought and action In these tightly argued and interconnected essays Joseph Raz examines the nature of normativity reason and the will the justification of reason and the objectivity of value He argues for the centrality but also demonstrates the limits of reason in action and belief He suggests that our life is most truly our own when our various emotions hopes desires intentions and actions are guided by reason He explores the universality of value and of principles of reason on one side and on the other side their dependence on social practices and their susceptibility to change and improvement He concludes with an illuminating explanation of self interest and its relation to impersonal values in general and to morality in particular Joseph Raz has been since the 1970s a prominent original and widely admired contributor to the study of norms values and reasons not just in philosophy but in political and legal theory This volume displays the power and unity of his thought on these subjects and will be essential reading for all who work on them **The Survey** ,1925 **The Shifting of Literary Values** Albert Mordell,1912 Journal of Education and School World ,1897 *A Manual of Moral Theology for English-speaking Countries* Thomas Slater,1908 **Morality and Religion** James Kidd,1895 **The moral function of the State, a paper** David George Ritchie,1887 *The Journal of Education* ,1897 **Church Ordinances from the Layman's Standpoint** Seton Churchill,1886 On baptism confirmation and the Holy communion **Church Review and Ecclesiastical Regtister** Nathaniel Smith Richardson,John McDowell Leavitt,Edward Brenton Boggs,Henry Mason Baum,1872 Friends' Intelligencer ,1925 **The Morals of Evolution** Minot Judson Savage,1880 **Unity Pulpit** ,1879
