Does God Exist Hans Kung, 2013-01-02 Does God exist The question implies another Who is God This book is meant to give an answer to both questions and to give reasons for this answer Does God exist Yes or no Many are at a loss between belief and unbelief they are undecided skeptical They are doubtful about their belief but they are also doubtful about their doubting There are still others who are proud of their doubting Yet there remains a longing for certainty Certainty Whether Christians or Jews believers in God or atheists the discussion today runs right across old denominations and new ideologies but the longing for certainty is unquenched Does God exist We are putting all our cards on the table here The answer will be Yes God exists As human beings in the twentieth century we certainly can reasonably believe in God even more so in the Christian God and perhaps even more easily today than a few decades or centuries ago For after so many crises it is surprising how much has been clarified and how many difficulties in regard to belief in God have melted into the Light that no darkness has overcome

**Does God Exist?** Hans Küng,1980 The essence of the argument is that it is still possible for someone who accepts modern progress and knowledge to decide to trust in God with a faith which although it transcends reason does not deny it The roots of this decision lie in the realities of life and for the Christian the decisive encounter is with Jesus in whose person and acts God is met But belief in God has also to reckon very seriously with the attacks on it made by many masters of modern thought There are in these pages studies of some forty major figures in intellectual history since the seventeenth century and there are fearless responses to recent challenges arising from Western or Eastern experience The author is clear that although belief in God can be verified by the modern person who is a Christian many medieval beliefs cannot be sustained Jacket

Does God Exist It is estimated that there are over 4 300 religions in the world Each claims to be correct Many people believe none are correct And while Christianity is the number one in terms of the number of members with 2 2 billion believers neither size nor the fervour of a religion s membership nor it s age guarantee anything most people believed the world was flat until recent centuries Almost all religions have no proof Many have some kind of bible Some even have archaeological evidence of past people or events contained in their writings But that alone does not prove their supernatural or divine claims This inter disciplinary book by necessity links theology and science In this book the author presents newly discovered inviolable circumstantial evidence which is arguably so strong this exceeds the standards required by most courts worldwide in convicting suspects based on DNA matching alone Also presented are extremely well documented and scientifically verified modern day events which are worthy of being called nothing else but miracles a term which is frequently over used Contents Newly discovered secrets of the crucifixion eclipse scientific proof of the crucifixion earthquake ancient well documented predictions fulfilled by Christ s crucifixion scientifically medically documented medical miracles and apparitions scientific proof of heaven purgatory and hell and more      *Does God Exist?* Stan W. This book presents the most recent debates by leading contemporary philosophers of enduring themes and issues concerning the question of God s existence William Craig and Antony Flew met on the 50th anniversary of the famous Copleston Russell debate to discuss the question of God s existence in a public debate The core of this book contains the edited transcript of that debate Also included are eight chapters in which other significant philosophers Paul Draper R Douglas Geivett Michael Martin Keith Parsons William Rowe William Wainwright Keith Yandell and David Yandell critique the debate and address the issues raised Their substantial and compelling insights complement and further the debate helping the reader delve more deeply into the issues that surfaced In the two final chapters Craig and Flew respond and clarify their positions taking the debate yet one step further The result of these many contributions is a book which provides the reader with a summary of the current discussion and allows one to enter into the dialogue on this central question in the philosophy of religion

**Does God Exist?** Donald Ackermann,2014-07-09 The contentious debate between believers and non believers as to whether or not God really exists has raged ever since man first gazed into the heavens and pondered the universe But recent discoveries coupled with what was already known are drawing the two opposing camps closer This commentary strives to demonstrate how this is happening and why the religious and scientific communities are gradually finding so much more that they can agree upon Both sides have given considerable ground Some scientists and theologians now acknowledge each others previously inflexible positions on many issues how old the earth is if other life similar to ours exists the nature of things that strongly suggest Intelligent Design It is particularly noteworthy how many prominent physicists cosmologists and astronomers now accept the possible existence of a God Supreme Being or Universal Power It is

seen that once the dogmatism on both sides is removed the compatibility of religion and science emerges Keep in mind the author makes no claim to being a scientist or theologian or that this commentary is intended to be exhaustive But it is believed few have ever assembled such a concentrated array of scientific and religious facts and opinions with accompanying analysis which when brought together form a more composite and truer picture of the truth And isnt that what everyone is after the truth If you find this subject intriguing as most do and you are looking for some answers you may find them here Come journey with the author into the uncertain the unknown the profound See where it takes you You will not be disappointed
