The Aztecs, Maya and Their Predecessors Muriel Porter Weaver,1972 [The Aztecs, Maya, and their predecessors](#)
Muriel Porter Weaver,1981 *The Aztecs, Maya, and Their Predecessors* Muriel Porter Weaver,1981 **The Aztecs, Maya, and their Predecessors** Muriel Porter Weaver,2019-09-16 The Third Edition of this highly successful introduction to the archaeology of Mesoamerica includes full coverage of the Aztec and Maya areas in one volume Beginning with the settling of the New World and continuing through the Spanish conquest of Mesoamerica in 1521 this completely updated textbook includes the deciphering of Maya hieroglyphs the dynamic history of the Maya the new royal tomb excavated at Copan Honduras important new discoveries at Rio Azul and Naj Tunich in Guatemala and Caracol in Belize ritual sacrifices on a massive scale revealed at Teotihuacan in central Mexico and new material from Tula Toltec capitol and from the heart of Mexico City **The Aztec Kings** Susan D. Gillespie,2022-03-08 Scholars have long viewed histories of the Aztecs either as flawed chronologies plagued by internal inconsistencies and intersource discrepancies or as legends that indiscriminately mingle reality with the supernatural But this new work draws fresh conclusions from these documents proposing that Aztec dynastic history was recast by its sixteenth century recorders not merely to glorify ancestors but to make sense out of the trauma of conquest and colonialism *The Aztec Kings* is the first major study to take into account the Aztec cyclical conception of time which required that history constantly be reinterpreted to achieve continuity between past and present and to treat indigenous historical traditions as symbolic statements in narrative form Susan Gillespie focuses on the dynastic history of the Mexica of Tenochtitlan whose stories reveal how the Aztecs used history to construct elaborate and reify ideas about the nature of rulership and the cyclical nature of the cosmos and how they projected the Spanish conquest deep into the Aztec past in order to make history accommodate that event By demonstrating that most of Aztec history is nonliteral she sheds new light on Aztec culture and on the function of history in society By relating the cyclical structure of Aztec dynastic history to similar traditions of African and Polynesian peoples she introduces a broader perspective on the function of history in society and on how and why history must change *Non-Western Educational Traditions* Timothy G. Reagan,2004-09-22 This text provides a brief yet comprehensive overview of a number of non Western approaches to educational thought and practice Its premise is that understanding the ways that other people educate their children as well as what counts for them as education may help us think more clearly about some of our own assumptions and values and to become more open to alternative viewpoints about important educational matters The value of this informative mind opening text for preservice and in service teacher education courses is enhanced by Questions for Discussion and Reflection and Recommended Further Readings included in each chapter New in the Third Edition Chapter 2 Conceptualizing Culture I We and The Other is new to this edition It is a response to feedback about the problems inherent in our general discourse about culture and in addition provides an example of a culture that is near to us but nevertheless alien the culture of the Deaf World Chapter 9 which deals

with Islam and traditional Muslim education has been substantially revised The subtitle of the Third Edition has been changed to Indigenous Approaches to Educational Thought and Practice reflecting not so much a change in the emphases found in the book but rather a recognition of the growing scholarly interest in indigenous peoples their languages cultures and histories Various points throughout the text have been expanded and clarified and chapters have been updated as needed

The Art and Iconography of Late Post-Classic Central Mexico Elizabeth Hill Boone, 1982

Invisible and Voiceless Martha Caso, 2011-02-24

INVISIBLE VOICELESS The Struggle of Mexican Americans for Recognition Justice and Equality traces the vicious history of the European conquest of the Americas and examines its pervasive impact on Mexican Americans and Mexican immigrants today Author Martha Caso sheds light on events often ignored or glossed over by history textbooks from the holocaust and enslavement of native peoples at the hands of European conquerors to the Mexican American War of 1848 to modern efforts by extremists to fan the flames of racism and xenophobia The reverberations of the European invasion still echo today and it is impossible to understand the current issues of poverty and racism without understanding their origins Historically Mexican Americans have wielded very little social and political power and recent xenophobic laws only serve to stoke the fires of hatred and antagonism and further erode their rights **INVISIBLE VOICELESS** offers Mexican Americans an opportunity to learn more about their history and their relationship with the United States and Mexico Casos hope is that once they understand their past Mexican Americans will find their collective voice and stand up for their rights that they will cease to be invisible and voiceless in America

Ceramics of Postclassic Cholula, Mexico Geoffrey G. McCafferty, 2001-12-31 As the center for the religious cult of Quetzalcoatl Cholula played a prominent role in shaping events of central Mexico's Postclassic period Yet confusion over historical events in Cholula itself have limited its place in recent archaeological considerations of Mesoamerica Since ceramic sequences are the backbone of archaeological chronologies this confusion ultimately relates to problems in previous attempts to order archaeological time with ceramics This book provides an innovative new classification of Cholula ceramics based on artifact assemblages from primary depositional contexts recovered from the UA 1 excavations A detailed and well illustrated description of ceramic types is provided to construct a new classification system These types are then seriated using collections from house floors and trash middens to suggest a new sequence spanning the Tlachiualtepetl 700 1200 CE and Cholollan 1200 1550 CE periods The polychrome ceramics of Cholula have been described as among the most beautiful of Mesoamerica employing vibrant colors to represent complex religious iconography of the Mixteca Puebla stylistic tradition By defining type and subtype variations in the polychrome ceramics a foundation is created for a refined chronology as well as for recognizing intra societal variability
