Abstract: *This article investigates the influence of religious faith on ethical values (autonomy, community, and divinity), and specifically considers the predictive role in shaping individuals' orientations toward autonomy, community, and divinity. Study examines the ways in which adherence to religious beliefs molds ethical perspectives. The research employs a multidimensional framework to assess the correlation between religious faith and values associated with personal autonomy, communal responsibility, and the sacred. Understanding the power of religious faith as a predictor of ethical values has implications for fostering a deeper comprehension of diverse moral frameworks and facilitating interfaith dialogue. The article underscores the importance of recognizing and respecting the role of religious beliefs in shaping ethical convictions, thereby contributing to a more inclusive and informed discourse on morality in a pluralistic society.*

Keywords: *power of religious faith, ethics of autonomy, ethics of community, ethics of divinity, EVA, SCSRFQ.*

Autonomy And Community:

Individuality, Autonomy and Community Stanley I. Benn,1980 **Autonomy and Community** Marjorie Keniston McIntosh,2002-06-27 An illustration of personal and collective freedom in a medieval locality that of Havering Essex **THE TRANSITION OF DANWEI-COMMUNITY AND URBAN COMMUNITY REBUILDING** Tian Yi-Peng,2021-11-18 In this work the author endeavors to treat Danwei system as a special and highly organized form of community and sets about his study from the perspectives of Danwei community s change and urban community reconstruction When it comes to the construction and development of urban communities in contemporary China academic circles at home often attempt to unravel its intimate and indissoluble connection with Danwei system and seek to lay emphasis upon the great complexity of their interactive relationship with each other However academic circles generally incorporate Danwei system taken as a national system as well as a universal institution into their fields of research whereas they rarely enter into a critical examination of the variations in its multiplicity of specific denotations by taking account of such variables as space region and culture nor do they show much concern about the existence of different types of Danwei In view of the foregoing difficulties in which the study of Danwei system gets entangled this study attempts to accomplish the following main purposes Firstly this study shall introduce such a variable as locality into the research on Danwei community by starting off from the research perspectives of Danwei community s origin formation and change Secondly several super large industrial communities in the old industrial bases shall be chosen as classic cases in illustration of long standing complications and entanglements enmeshed in this study And thirdly it seeks to reveal the mode and experience of urban community development against a background of Danwei system reform so that by gaining a full understanding of as well as making an in depth analysis of their rich implications we can enrich the theory of urban community construction in the Chinese context and hence grapple successfully with some theoretical problems confronting urban community reconstruction against a background of Danwei community change which shall eventually bring about a smooth transition of Danwei society This book will assuredly open an exceptional window to the transition of China from traditional to modern society the transition of Chinese society from planned economy to market economy and the change track of the interplay between the Chinese government and modern Chinese society after the founding of New China in 1949 at the present time and even in the foreseeable future **Autonomy Vs. Community** Jule DeJager Ward,1986 **Renegotiating Community** William D. Coleman,Diana Brydon,2009-01-01 Both as a concept and a set of social relationships community is central to contemporary debates about globalization Faced with finding a livable response to globalization many communities are renegotiating their identities and functions and in some instances entirely new communities are being formed Yet there is no clear consensus on why community matters or on how globalization affects particular communities *Renegotiating Community* asks what happens to the autonomy of individuals and communities under the influence of globalization Original case studies show how a range

of communities are renegotiating the meanings of community and autonomy while living with and sometimes challenging the processes of globalization By addressing the coercive and comforting dimensions of community as well as the need to reconcile conflicting claims to autonomy this book redraws the conceptual maps through which community globalization and autonomy are understood

The Decline of the Individual Mark D. White, 2017-09-18 This book explores the steady decline in the status of the individual in recent years and addresses common misunderstandings about the concept of individuality Drawing from psychology neuroscience technology economics philosophy politics and law White explains how and why the individual has been devalued in the eyes of scholars government leaders and the public He notes that developments in science have led to doubts about our cognitive competence while assumptions made in the humanities have led to questions about our moral competence In this book White goes on to argue that both of these views are mistaken and that they stem from overly simplistic ideas about how individuals make choices however imperfectly in their interests which are multifaceted and complex In response he proposes a new way to look at individuals that preserves their essential autonomy while emphasizing their responsibility to others inspired by the moral philosophy of Immanuel Kant and the legal and political philosophy reflected in the Bill of Rights to the U S Constitution This book explains how individuality combines both rights and responsibilities reconciles the popular yet false dichotomy between individual and society and provides the basis for a humane and respectful civil society and government This book is part of White's trilogy on the individual and society which includes *The Manipulation of Choice* and *The Illusion of Well Being*
