Avenging Brotherhood:

The Avenging Brotherhood Ivan Tattersall, 1929 **The V-a-s-e** James Jeffrey Roche, 1908 The Pursuit of History John Tosh, 2015-02-11 This classic introduction to the study of history invites the reader to stand back and consider some of its most fundamental questions what is the point of studying history How do we know about the past Does an objective historical truth exist and can we ever access it In answering these central questions John Tosh argues that despite the impression of fragmentation created by postmodernism in recent years history is a coherent discipline which still bears the imprint of its nineteenth century origins Consistently clear sighted he provides a lively and compelling guide to a complex and sometimes controversial subject while making his readers vividly aware of just how far our historical knowledge is conditioned by the character of the sources and the methods of the historians who work on them The sixth edition has been revised and updated with key new material including a brand new chapter on public history sections on digitised sources and historical controversy discussion of topics including transnational history and the nature of the archive an expanded range of examples and case studies a comprehensive companion website providing valuable supporting material study questions and a bank of primary sources Lucid and engaging this edition retains all the user friendly features that have helped to make this book a favourite with both students and lecturers including marginal glosses illustrations and suggestions for further reading Along with its companion website this is an essential guide to the theory and practice of history The Cambrian , 1915

Smith,Reginald Charles Terry,1995 In this text 15 scholars reassess the life and work of Wilkie Collins Some examine his bohemian temperament while others examine the crimes of the day and historical backgrounds relating to *The Moonstone* and *The Woman in White* **The Cumulative Book Index** ,1930 **The Windings of the Labyrinth** Peter Thoms,1992 Author of such feats of storytelling as *The Woman in White* and *The Moonstone* Wilkie Collins has traditionally been recognized far more than for his accomplishments as a serious novelist In this study of *The Moonstone* Peter Thoms argues for a new appreciation of this early master of detection and intrigue Plotting in Collins Thoms contends represents much more than the skillful carpentry of the novelist It constitutes the essential drama of the major novels themselves as protagonists struggle for control of the stories in which they find themselves embedded Mr Thoms scholarly contribution is in recognizing an important constructive quality in Collins evident fascination with intricate and intriguing plotting Other critics he says have tended to single out Collins plots as indications of his superficiality as a writer Mr Thoms study does in fact demonstrate that there is much more to Collins elaborate plots than the delights of suspense and detection So his main claim is justified in that he increases our respect for the ramifications of Collins story telling techniques John R Reed *The Windings of the Labyrinth* asserts that the structures of Collins s major novels possess surprising sophistication that each of these novels elaborates a quest for identity and that this quest for a personal story is intimately tied to the emergence of the novel s structure In reappraising Collins s achievement Thoms has written an accessible study that will be of interest no only to Victorian scholars readers of Collins and students of detective fiction but to anyone interested in the relationship between a novel s plot and its meaning **Gender in the Vampire Narrative** Amanda Hobson,Melissa Anyiwo,2016-09-26 *Gender in the Vampire Narrative* addresses issues of masculinity and femininity unpacking cultural norms of gender This collection demonstrates the way that representations of gender in the vampire narrative traverse a large scope of expectations and tropes The text offers classroom ready original essays that outline contemporary debates about sexual objectification and gender norms using the lens of the vampire in order to examine the ways those roles are undone and reinforced through popular culture through a specific emphasis on cultural fears and anxieties about gender roles The essays explore the presentations of gendered identities in a wide variety of sources including novels films graphic novels and more focusing on wildly popular examples such as *The Vampire Diaries* *True Blood* and *Twilight* and also lesser known works for instance *Byzantium* and *The Blood of the Vampire* The authors work to unravel the ties that bind gender to the body and the sociocultural institutions that shape our views of gendered norms and invite students of all levels to engage in

interdisciplinary conversations about both theoretical and embodied constructions of gender This text makes a fascinating accompanying text for many courses such as first year studies literature film women s and gender studies sociology popular culture or media studies cultural studies American studies or history Ultimately this is a text for all fans of popular culture Hobson and Anyiwo chase the vampire through history and across literature film television and stage exploring this complexity and offering insightful and accessible analyses that will be enjoyed by students in popular culture gender studies and speculative fiction This collection is not to be missed by those with an interest in feminist cultural studies or the undead Barbara Gurr University of Connecticut Hobson and Anyiwo push the boundaries of the scholarship as it has been written until now Catherine Coker Texas A M University Amanda Hobson is Assistant Dean of Students and Director of the Women s Resource Center at Indiana State University U Melissa Anyiwo is a Professor of Politics History and Coordinator of African American Studies at Curry College in Massachusetts
