Awakening Earth:

The Awakening Earth Peter Russell, 2019-06-07 Originally published in 1982 The Awakening Earth explores the idea of the Earth as a collective self regulatory living organism and considers in this context the function of the human race The book provides an exploration of humanity s potential and explores the possibility of mankind s evolutionary future Drawing on the work of physicists psychologists philosophers and mystics the book argues that humanity is on the verge of another evolutionary leap and explores evolution in the context of spiritual growth arguing that widespread inner awakenings could lead to a more analogous society functioning as a single social super organism much in the way cells in a body function as a biological organism

The Awakening Earth Peter Russell, 1985 **Awakening Earth** Duane Elgin, 1993 **Awakening Earth** Duane Elgin, 1993 Just as there are relatively distinct stages that characterize the development of an individual from infancy to early adulthood so too are there discernible stages in the development of our species as we move toward a planetary scale civilization Awakening Earth brings together views from science and spirituality East and West the practical and the visionary to present a compelling new picture of human evolution Based upon twenty years of research this book explores the human journey from the initial awakening of hunter gatherers roughly 35 000 years ago through the agrarian era and Industrial Revolution and then goes on to describe three additional stages of development essential for realizing our initial maturity as a global species civilization A disoriented world civilization faced with dwindling resources mounting pollution and exploding population is a recipe for ecological collapse and social anarchy It is imperative that the human family begin to make rapid and profound changes in how we live together on the Earth To accomplish this we must now ask ourselves fundamental questions Who are we What are we doing here Where are we going as a species Awakening Earth provides a catalyst for this conversation with its integrative vision and inspiring map of the journey toward a sustainable compassionate and creative future While not predicting a sudden new age of social enlightenment Awakening Earth does present the promising view that humanity is roughly halfway through seven major transformations in culture and consciousness required to build a planetary civilization that can endure into the deep future BOOK JACKET Title Summary

Russell, 2019-10-16 Originally published in 1994 The Earth Humanity and God discusses the relationship between science and religion The book discusses the condition of the earth as it was at the time of publication and the future prospects of the planet arguing that neither the conventional mechanistic view nor New Age philosophy helps alone in evaluating our relationship with the Earth The book examines methods of combatting the threats to the Earth exploring both a scientific and non scientific stance investigating the uncontrolled expansion of technology as well as empirical pre scientific mysticism The book also explores the resurgence in ancient ideas of Mother Earth as a dangerous piece of romantic irrationality and suggests that these views pose a danger to religious scientific examinations The book suggests instead a hard headed

attempt to relate Biblical and scientific data and that this in turn can yield a valuable new understanding of the problems facing the world **Emergence** Sanan,1993-11-01 **Including the Earth in Our Prayers** Llewellyn

Vaughan-Lee,2019-04-01 Including the Earth in Our Prayers tells a story of love and prayer how spiritual practice is not just for ourselves our own journey but for life itself It steps back to reclaim the wisdom of our ancestors including the Original Instructions of Indigenous peoples instructions that describe how we need to get along with all of creation and relates these teachings to the need of our present time With our ecosystem in crisis and our culture increasingly divisive it suggests ways in which the energy and transformative potential of our spiritual nature can be applied to these critical issues and reconnects us with a spiritual understanding of the living Earth The simple premise of this book is that there is a vital need to shift our collective culture from a story of separation and exploitation into a new story of living oneness and that spiritual practice and the love and light it generates have an essential part to play in this shift Including the Earth in Our Prayers is a revised and updated edition of Awakening the World A Global Dimension to Spiritual Practice which was originally published in 2006 The call of the soul in our time is to become loving partners with our world in manifesting the potentials of blessing and wholeness innately within us and within the Earth In this wonderful book Llewellyn eloquently shows us that we each have within us the power to answer this call and embody this partnership In a time when we are beset with fear and divisiveness he offers a vision of wholeness and healing hope and empowerment It is definitely a book whose time has come David Spangler author of Journey into Fire Llewellyn Vaughan Lee is a rare mystic who honors the eternal truths of the wisdom traditions while recognizing the ever evolving ways that these truths must be accessed and lived this book opens our eyes and hearts to the true potential of spiritual practice to go beyond self transformation to play a vital role in the well being and awakening of the Earth as a whole He suggests that ours is a time when new pathways are being revealed that use spiritual practice as a way of nourishing the whole of life pointing the way to a form of spiritual service that belongs to the future David T Nicol author of Subtle Activism The Inner Dimension of Social and Planetary Transformation this luminous book shows us the way to navigate these tumultuous times with a clear mind a hopeful heart and a renewed relationship with holy awe In Including the Earth in Our Prayers Vaughan Lee one of the great wisdom teachers of our age invites us to participate in nothing less than the radical rebirth of all that is Mirabai Starr author of God of Love and Wild Mercy The Earth is luminous From being a dark and degraded thing the earth is in reality an angelic being Our relationship with the Earth not one of domination but one grounded in harmony adoration and contemplation is a powerful indicative of our relationship with the Divine with the feminine and ultimately with the entire realm of the Spirit Llewellyn Vaughan Lee opens up this connection in a lucid and luminous way Highly recommended for devotees of spiritual pursuit and ecological sustainability Omid Safi author of Radical Love Teachings from the Islamic Mystical Tradition Professor Duke University Leader Illuminated Tours As we enter the Anthropocene era when no part of the world remains untouched by the human imprint the

need for action is urgent Any talk now of contemplation or spirituality might appear to be self centered and much of what passes for spirituality has fallen into this quagmire But as Llewellyn Vaughan Lee shows us Real spiritual practice is never for ourself alone but always for the whole always for the sake of the Beloved Drawing on the deep tradition of Sufi wisdom Including the Earth in our Prayers is a call to place the wellbeing of the Earth at the center of our spiritual practice With lucidity grace and wisdom Vaughan Lee has given us a cleverly disguised resistance manual for our time Fred Bahnson author Soil Sacrament A Spiritual Memoir of Food and Faith and director of the Food Health and Ecological Well Being Program at Wake Forest University School of Divinity
