Review and Argumentation of Robert Nozick's Anarchy, State and Utopia Gary L. Thompson, Weber State University. Honors Program, 1992 Eight Theories of Justice Karen Lebacqz, Matthew J. Gaudet, 2025-04-01

There may be no more urgent cry than that for justice and no more frequent accusation than that of injustice But what is meant when these terms are used Since its initial publication nearly forty years ago Karen Lebacqz's *Six Theories of Justice* has been the go to guide for answering this question But today the matters upon which it touches are even more acute *Eight Theories of Justice* offers a major update and expansion of the earlier text Together with coauthor Matthew J Gaudet Lebacqz presents the major alternative views of justice including John Stuart Mill's utilitarianism the contract system of John Rawls the entitlement views of Robert Nozick and the communitarian ideas of Michael Sandel These political and philosophical accounts of justice are supplemented with analysis of major theological approaches Pope Francis and Catholic social teaching Reinhold Niebuhr and Christian realism the Black liberation theology of James Cone and Katie Cannon's womanist ethics Each chapter introduces the major elements of each theory presents the best critiques of each theory and offers an assessment of their value for living justly in the modern world

Robert Nozick's *Anarchy, State and Utopia* is one of the works which dominates contemporary debate in political philosophy Drawing on traditional assumptions associated with individualism and libertarianism Nozick mounts a powerful argument for a minimal nightwatchman state and challenges the views of many contemporary philosophers most notably John Rawls Jonathan Wolff's new book is the first full length study of Nozick's work and of the debates to which it has given rise He situates Nozick's work in the context of current debates and examines the traditions which have influenced his thought He then critically reconstructs the key arguments of *Anarchy, State and Utopia* focusing on Nozick's Doctrine of

Rights his Derivation of the Minimal State and his Entitlement Theory of Justice The book concludes by assessing Nozick's place in contemporary political philosophy

The Virtues of Vengeance Peter A. BOOK JACKET [Facing Up to Scarcity](#) Barbara H. Fried, 2020-02-27 Facing Up to Scarcity offers a powerful critique of the nonconsequentialist approaches that have been dominant in Anglophone moral and political thought over the last fifty years In these essays Barbara H Fried examines the leading schools of contemporary nonconsequentialist thought including Rawlsianism Kantianism libertarianism and social contractarianism In the realm of moral philosophy she argues that nonconsequentialist theories grounded in the sanctity of individual reasons cannot solve the most important problems taken to be within their domain Those problems which arise from irreducible conflicts among legitimate and often identical individual interests can be resolved only through large scale interpersonal trade offs of the sort that nonconsequentialism foundationally rejects In addition to scrutinizing the internal logic of nonconsequentialist thought Fried considers the disastrous social consequences when nonconsequentialist intuitions are allowed to drive public policy In the realm of political philosophy she looks at the treatment of distributive justice in leading nonconsequentialist theories Here one can design distributive schemes roughly along the lines of the outcomes favoured but those outcomes are not logically entailed by the normative premises from which they are ostensibly derived and some are extraordinarily strained interpretations of those premises Fried concludes as a result that contemporary nonconsequentialist political philosophy has to date relied on weak justifications for some very strong conclusions
