Ancient Faces:

Ancient Faces Susan Walker, 2020-03-25 From the first major discoveries a century ago the painted portraits of Roman Egypt were a revelation to scholars and the public alike and the recent finding of a new cache of these gilded images which made national headlines have only heightened their mystery and appeal Published to coincide with a new major exhibition of these portraits Ancient Faces is the most comprehensive up to date survey of these astonishing works of art Dating from the later period of Roman rule in Egypt shortly before the birth of Christ the painted mummy portraits are among the most remarkable products of the ancient world a fusion of the traditions of pharonic Egypt and the Classical world They are historical and cultural objects of outstanding importance and beauty superb works of art that represent some of the earliest known examples of life like portraiture Though the subjects of the portraits believed in the traditional Egyptian cults which offered them a firm prospect of life after death they also wished to be commemorated in the Roman manner with their fashion of dress and adornment signaling their status in life Despite their ancient history these portraits speak to the modern eye with a beauty and intensity that would be lost to portraiture until the Renaissance Ancient Faces Morris Leonard Bierbrier, John Taylor, Paul Roberts, 2000 From the first major discoveries in the 19th century the painted panel and shroud portraits of Roman Egypt were a revelation to scholars and the public alike Though the subjects of the portraits believed in the traditional Egyptian cults which offered them a firm prospect of life after death they also wished to be commemorated in the Roman manner the portraits focusing on their status in life The images reveal the adoption of Roman fashions in dress and personal adornment by persons remote from the centre of the empire but likely to have been actively engaged in its local administration Many of the best known mummy portraits come from the Fayum but portraits in various media are known from sites in the Nile Valley and along the Mediterranean coast This text presents a wide range of examples showing Roman influence coexisting with traditional Egyptian ways of commemorating the dead **Old Faces of Roman and Medieval Types** De Vinne Press, 1897 **Ancient Faces** Susan Walker, 2000 Old Faces in New Masks Robert Blakey, 1859 **The Archaeology of Race** Debbie Challis, 2013-03-14 How much was archaeology founded on prejudice The Archaeology of Race explores the application of racial theory to interpret the past in Britain during the late Victorian and Edwardian period It investigates how material culture from ancient Egypt and Greece was used to validate the construction of racial hierarchies Specifically focusing on Francis Galton's ideas around inheritance and race it explores how the Egyptologist Flinders Petrie applied these in his work in Egypt and in his political beliefs It examines the professional networks formed by societies such as the Anthropological Institute and their widespread use of eugenic ideas in analysing society Archaeology of Race draws on archives and objects from the Petrie Museum of Egyptian Archaeology and the Galton collection at UCL These collections are used to explore anti-Semitism skull collecting New Race theory and physiognomy These collections give insight into the relationship between Galton and Petrie and place their ideas in historical context *Histories of Egyptology* William

Carruthers,2014-07-11 Histories of Egyptology are increasingly of interest to Egyptologists archaeologists historians and others Yet particularly as Egypt undergoes a contested process of political redefinition how do we write these histories and what or who are they for This volume addresses a variety of important themes the historical involvement of Egyptology with the political sphere the manner in which the discipline stakes out its professional territory the ways in which practitioners represent Egyptological knowledge and the relationship of this knowledge to the public sphere Histories of Egyptology provides the basis to understand how Egyptologists constructed their discipline Yet the volume also demonstrates how they construct ancient Egypt and how that construction interacts with much wider concerns of society and of the making of the modern world
