*Tibet's Ancient Religion, Bön* Christoph Baumer, 2002 Tibet the highland beyond the Himalayas seems permeated with an atmosphere of living spirituality Here in ancient times the religion of Bön was widespread marked by shamanistic practices and a pronounced cult of the dead Until well into the eighth century Bön was the dominant religion and culture on the roof of the world it is in essence the belief system of ancient Tibet From the second half of the eighth century onward Bön was superseded by Buddhism which had traveled north from India and the two religions came to influence each other in both doctrine and ritual In spite of the eventual dominance of Buddhism through its position as the state religion however a reformed Bön school has been able to assert itself down to the present Its tradition continues to remain alive in a few monasteries as well as in visible signs of Tibetan popular religion including prayer flags and spirit traps temple and mountain circumambulations death and marriage rites oracle techniques and countless religious rituals In fact it may be reasonably asserted that Tibetan culture cannot be completely understood without a knowledge of Bön practices This book takes the reader to secluded monasteries and sacred sites of the Bön religious community With its thoroughly informed text and more than 200 photographs of Bön monasteries lamas and sacred sites most undocumented until now this volume introduces the myths and culture of ancient Tibet The preface written by the spiritual head of all Bönpos confers additional authority on the work while its notes maps index and an extensive bibliography make it essential reading for anyone with an interest in Tibet or eastern religions

Hawking, 2025-09-16 Explore Ancient Tibet and its Profound Secret Knowledge The civilization of very ancient Tibet the lost kingdom of Zhang Zhung and its legendary tradition of sorcery and true magic is among the least known and most irritatingly mysterious obscurities of history Very little of its past has been deciphered and orthodox scholarship stands before Zhang Zhung in deeper darkness today than that which shrouded the Egypt of the Pharaohs before Champollion Archaeologists debate what the ancient civilization on the Qinghai Tibet Plateau actually was when it came and whence it came Doubtless many chapters of Tibet's ancient history will lie forever silent under her remote and desolate soil yet extant traditions exist and have been too readily set aside academic pundits love to brand as mythical the accounts which have endured the millennia and which mischievously persist The study of antiquity is properly accounted worthless except as it may be made living knowledge which illuminates and enriches our contemporary life Owing to a remarkable series of events in an isolated region of the Himalayas I encountered an extraordinary group of people and through those encounters was privileged to learn that much of the secret knowledge of the ancient Zhang Zhung culture has not only been preserved it is powerful richly

illuminating and utilized to this day As the reader will discover these shrouded secrets formulate the explorations in this book As one of their most illuminating concepts those traditions relate that there is a group of esoteric teachings the Four Portals which set forth the true nature of physical reality and techniques of powerful elemental magic or sorcery The first traces of the teachings are thought to have appeared as part of the lore of the pre Tibetan Zhang Zhung culture that arose in Tibet several thousand years ago but may have originated far earlier Being a forbidden body of knowledge said to convey enormous powers the teachings disappear from the historical record for countless centuries not to reemerge until the 7th century A D in the arcane scriptures of the ancient pre Buddhist B on religion According to those ancient traditions the teachings of the Four Portals were formulated by the earliest known Buddha like master Tonpa Shenrab Miwoche The B on traditions relate this historic event as occurring as early as 18 000 to 16 000 B C Although still shrouded in mystery our most recent research indicates that the extant evidence places the earliest date of the Zhang Zhung culture at about 6 000 B C although the date of 18 000 to 16 000 B C may indicate the existence of a true Zhang Zhung or pre Zhang Zhung culture existing prior to the Younger Dryas Boundary cataclysmic event that effectively erased early civilizations from the historical record Much like our most recent historical Buddha Shenrab renounced his life as a prince of the royal family to become a monk Over a period of many years the traditions relate he gained access to secret knowledge that had been imparted recorded and hidden away some two thousand years earlier by an entity known as Gekhoe With this knowledge Shenrab achieved enlightenment and otherworldly powers then later composed a comprehensive body of teachings to instruct qualified seekers on the means and techniques of attaining the most elevated wisdom and power Transcribed from explorer Hawking s five years in Nepal and Tibet this book reveals the profound secret knowledge of this long forgotten realm and its extraordinary secrets of sorcery and magic An incomparable read for anyone interested in occult and paranormal studies For more information please see the read sample feature Thank you
