And So She Writes:

And So She Writes... Trina Stroud,2005-03 And So She Writes is a magnificent and powerful collection of poems for every soul and every mood Trina Danette Stroud has created a poetic diary expressed in her own voice and form about self identity self worth self confidence dreams love and life Behind each poem is a story with a sense of purpose always believe in yourself stand up for what you believe never give up and know when to fight Stroud eloquently and elegantly captures one woman s fight to persevere no matter what life casts her way This body of work showcases an incredible integrity that only comes from having a determination to defy the odds and succeed And So She Writes is a poetic journey which can be likened to a piece of coal that is transformed into a rare and precious diamond Her message her voice and her poetry will inspire you Stroud says triumphantly It is not what life has done to you that makes the difference it is what you do with your life that tells the real story

So She Wrote A Book A. Maksimow,2022-01-14 The romance novel So She Wrote a Book is based on a true modern love story This book was written to inspire people all around the world to first seek the ultimate power of love within themselves and to further share with a soulmate This book was written to help us understand the many different forms of love we can encounter and experience including love for ourselves friends family and partner We gain further depth on all the power and beauty the gift of love has to offer We learn how to overcome real life challenges and situations in the modern world we live in today while love is sought all around us This is a story of how once a fearful lonely and lost child with limited resources finally found love within herself before she learned to share the highest power of true love Once a scared and hopeless child is faced with tremendous opposition around her and discovers true love is very real in her middle age This is a story shared to inspire us to seek our individual passion through our very own voice we hear from deep within directing our thoughts and filling our minds This book was written for those who believe they can overcome and succeed in finding true love within without ever giving up on hope

Sense and Sensitivity Hanna Ezer,2015-12-17 The study described in this book is a qualitative phenomenological research study whose objective was to reveal the writer s identity of teacher educators in academia and to discover how they express this identity in their teaching practice Twenty three academic scholars were interviewed for the study The research findings indicate that the identity of the writer is complex incorporating three interwoven aspects a cognitive aspect an emotional aspect and a sociocultural aspect The cognitive aspect finds expression in the writer s awareness and understanding of the medium of writing which explicitly and openly entails the production of ideas while writing This process is fundamentally rhizomatic in that it moves in different directions each time beginning anew from a different point and is ultimately geared toward a multidirectional and multilayered product The emotional aspect in the writer s life is somewhat mystical in nature It is a medium that surrounds writers at all times and enables them to find their voice and their place in the world The writing workspace is perceived as part of this aspect It is a sanctuary that provides inspiration is designed according to the writer s needs and shapes the writing The sociocultural

aspect shapes the identity of the writer and highlights social mirroring as part of the writer's positioning in life and in the professional community
 Intended audience This book is aimed at the community of researchers in the writing domain It is also of interest to academic scholars in higher education who perceive writing as part of their personal and academic identity
 Qualitative researchers will find interest in the research method and the relations between qualitative genres among them
 phenomenological and narrative genres
