Grand Chapter of Vermont,1928     **What Shall I Read Next?** F. Seymour Smith,1953-01-02 Originally published in 1953 What Shall I Read Next lists nearly 2000 works published after 1900 with the compiler s own appreciatory comments on selected items It was a companion volume to Mr Seymour Smith s English Library Both books are published on behalf of the National Book League In his introduction explaining the scope and purpose of the book Mr Seymour Smith wrote Some will find it useful merely as a shopping list reminding them of books they know something about already and serving as a remembrancer To others and particularly to younger readers it may introduce books which have so far escaped their notice It is hoped too that for booksellers and librarians it will have a practical use as a desk book for answering enquiries for serving as a check list for stock and for use as a reference book when memory fails     *Diet for a Large Planet* Chris Otter,2023-06-05 In this magisterial study Chris Otter traces Britain s transition to a diet rich in animal proteins and refined carbohydrates like wheat and sugar a diet that required more acreage than that of Britain itself and that if followed everywhere would soon deplete the planet s resources as the title announces this was truly a diet for a large planet From the late 1700s to the end of World War II Otter accounts for the structures practices and ideologies generated by Britain s nutrition transition He shows how Britain was the first nation to undergo the population explosion urbanization and industrialization we associate with modernity and how it managed the unprecedented problem of how to feed its growing population Its radical solution would be to outsource its food production leading away from a locally produced plant based diet to one reliant on global markets international trade networks and enormous agro food systems that would have planetary effects on famine war the world economy and the wider earth system Not only did this phase in Britain s history make the consumption of meat white bread sugar and butter a coveted diet linked to development luxury and power it also opened up a new phase in economic history one whose dramatic effects endure to this day whether in terms of health problems eating disorders or the seemingly endless world food crisis     **The English Catalogue of Books Published from January, 1835, to January, 1863** ,1864     *The Cornell Countryman* ,1907     **The Imagined Past** Christopher Shaw,Malcolm Chase,1989     The Oregon Countryman ,1918     **The Countryman** John William Robertson Scott,1946     **The Way of a Dog** Sir William Beach Thomas,1948     *In the sweet West country, by Alan St Aubyn* Alan St. Aubyn,Frances Marshall,1895     Chronicles of a Countryman Walter Alden Dyer,1928     *The Fortnightly* ,1946     **Cornell Countryman** ,1923     **The Spectator** ,1893 A weekly review of politics literature theology and art     **The California Countryman** ,1916
