The Cunning Turtle Kurt Wiese,1956-03-02      **The Cunning Turtle** ,1956 A picture story that tells why turtles have cracks in their shells Grades 1 2      **Cunning Turtle** ,1966      **Cunning Turtle** Kurt Wiese,1986-12-01      *I Am the Clay* Chaim Potok,2010-04-28 Chaim Potok writes powerfully about the suffering of innocent people caught in the cross fire of a war they cannot begin to understand Humanity and compassion for his characters leap from every page San Francisco Chronicle As the Chinese and the army of the North sweep south during the Korean War an old peasant farmer and his wife flee their village across the bleak bombed out landscape They soon come upon a boy in a ditch who is wounded and unconscious Stirred by possessiveness and caring the woman refuses to leave the boy behind The man thinks she is crazy to nurse this boy to risk their lives for some dying stranger Angry and bewildered he waits for the boy to die And when the boy does not die the old man begins to believe that the boy possesss a magic upon which all their lives depend      *Languages of the Amazon* Aleksandra IꞑUꞑr'evna Aïkhenval'd,2012-05-17 This guide and introduction to the extraordinary range of languages in Amazonia includes some of the most fascinating in the world and many of which are now teetering on the edge of extinction      **The Languages of the Amazon** Alexandra Y. Aikhenvald,2012-05-18 This is the first guide and introduction to the extraordinary range of languages in Amazonia which include some of the most the most fascinating in the world and many of which are now teetering on the edge of extinction Alexandra Aikhenvald one of the world s leading experts on the region provides an account of the more than 300 languages She sets out their main characteristics compares their common and unique features and describes the histories and cultures of the people who speak them The languages abound in rare features Most have been in contact with each other for many generations giving rise to complex patterns of linguistic influence The author draws on her own extensive field research to tease out and analyse the patterns of their genetic and structural diversity She shows how these patterns reveal the interrelatedness of language and culture different kinship systems for example have different linguistic correlates Professor Aikhenvald explains the many unusual features of Amazonian languages which include evidentials tones classifiers and elaborate positional verbs She ends the book with a glossary of terms and a full guide for those readers interested in following up a particular language or linguistic phenomenon The book is free of esoteric terminology written in its author s characteristically clear style and brought vividly to life with numerous accounts of her experience in the region It may be used as a resource in courses in Latin American studies Amazonian studies linguistic typology and general linguistics and as reference for linguistic and anthropological research      **A Grammar of Tariana, from Northwest Amazonia** Aleksandra IꞑUꞑr'evna Aïkhenval'd,2003-08-07 This is a comprehensive reference grammar of Tariana an endangered Arawak language from a remote region in the northwest Amazonian jungle Its speakers traditionally marry someone speaking a different language and as a result most people are fluent in five or six languages Because of this rampant multilingualism Tariana combines a number of features inherited from

the protolanguage with properties diffused from neighbouring but unrelated Tucanoan languages Typologically unusual features of the language include an array of classifiers independent of genders complex serial verbs case marking depending on the topicality of a noun and double marking of case and of number Tariana has obligatory evidentiality every sentence contains a special element indicating whether the information was seen heard or inferred by the speaker or whether the speaker acquired it from somebody else This grammar will be a valuable source book for linguists and others interested in natural languages

I Saw the Dog Alexandra Aikhenvald,2021-04-08 Every language in the world shares a few common features we can ask a question say something belongs to us and tell someone what to do But beyond that our languages are richly and almost infinitely varied a French speaker can t conceive of a world that isn t split into un and une male and female while Estonians have only one word for both men and women tema In Dyirbal an Australian language things might be masculine feminine neuter or edible vegetable Every language tells us something about the people who use it In I Saw the Dog linguist Alexandra Aikhenvald takes us from the remote swamplands of Papua New Guinea to the university campuses of North America to illuminate the vital importance of names the value of being able to say exactly what you mean what language can tell us about what it means to be human and what we lose when they disappear forever **Inter-ocean** ,1928
