The Peasant of the Garonne Jacques Maritain,2013-01-25 At eighty five Jacques Maritain the most distinguished Catholic philosopher of the twentieth century has written what he offers as his last book and it turns out to be a shocker The peasant as Maritain calls himself in the title is a man who calls a spade a spade and a storm of controversy descended

immediately on the book's publication in France as both Right and Left reeled from the force of Maritain's criticism. The Peasant of the Garonne is a sharp attack on the new philosophy hoping to cool off the fever for change that Maritain believes is imperiling the church's traditional spirituality and even the substance of doctrine. There is sardonic humor in his treatment of Teilhardians, phenomenologists, existentialists, new style biblical critics, and clerical Freudians, but Maritain is deeply serious in warning that their capitulation to fashionable trends represents a kind of kneeling before the world.

Language Origin A Multidisciplinary Approach presents a synthesis of viewpoints and data on linguistic, psychological, anatomical, and behavioral studies on living species of Primates and provides a comparative framework for the evaluation of paleoanthropological studies. This double endeavor makes it possible to direct new research on the nature and evolution of human language and cognition. The book is directed to students of linguistics, biology, anthropology, anatomy, physiology, neurology, psychology, archeology, paleontology, and other related fields. A better understanding of speech pathology may stem from a better understanding of the relationship of human communication to the evolution of our species. The book is conceived as a timely contribution to such knowledge since it allows for the first time a systematic assessment of the origins of human language from a comprehensive array of scientific viewpoints. **Telephony**, 1923 *The Canner*, 1929
