environmental and safety risks China and other powers are increasing their activities with some questioning the consensus of the Antarctic club Security concerns are increasingly discussed despite Antarctica's dedication to peaceful purposes This book brings together the main primary international materials concerning the regulation and governance of Antarctica including multilateral and bilateral treaties United Nations materials soft laws and judicial decisions It covers the spectrum of Antarctic issues from environmental protection to scientific cooperation to tourism As it shows Antarctic law has constantly adapted to meet new challenges and is a sophisticated inclusive dynamic and responsive regime
