**Reader's Joyce** Sophie Corser, 2022-04-27 Rethinks the relationships between author, reader, and text in literature and criticism through a study of James Joyce The Reader's Joyce engages with core issues of literary studies by rethinking accepted literary, critical, and theoretical notions of the relationships between author, reader, and text This monograph describes and queries the activity of reading prompted by the intertextuality and narrative of James Joyce's *Ulysses* (1922) focusing on in-depth readings of the novel and its interactions with other texts from classical and contemporary literature to criticism theory and biography Central to this approach are new analyses of the now commonly underplayed significance of Homer's *Odyssey* to *Ulysses* and of how authority functions in the developing critical reception of *Ulysses* since its publication Through the prisms of *Ulysses* and the Joyce industry this monograph provides new perspectives on the author-reader-text triad in the wider field of literary criticism diving into layered histories of concepts, challenges, and retreats in order to ask how we read now Key Features Offers the first extended exploration of authority in the reception of a canonical modernist author Re-centres Homer in *Ulysses* and its reception Presents an innovative approach to issues of reading by marrying new close textual analysis of sections of *Ulysses* with critical archival and literary reception studies Suggests a new understanding of literary and critical acts of reading and authorship
