from blogging unless you're willing to work full time at it. Think of topics that are unique and haven't been covered before and that are inherently interesting. Use keyword research tools to get ideas for the kind of things people are looking for in your niche and that are likely to be successful from an SEO perspective. Therefore, read the sites of competitors for inspiration and ideas. Read news sites and particularly those with separate categories for finance, business, health, etc. Look around forums for inspiration. Remember you can also create curated content which is content you've gathered and collected into one place.

Step 4: Socializing Your Blog Next you need to add a social element to your blog. This is very important because it lets you share your content and gives it the potential to go viral. Think of your target audience as you write the blog. Share to Facebook, Twitter, and LinkedIn as you post. Be everywhere: have a social media account on all of the major social networks. Add social sharing buttons to your website to allow visitors to share your content as they wish. Add Disqus to your website. This is a plugin that provides support for blog comments and is a very feature-rich, effective, and popular. Respond to comments and emails. Consider every visitor a potential fan and don't underestimate the value of that. Encourage conversation within your posts; ask for opinions and elicit discussion.

Step 5: Add an Opt In Form This is a form that you will use to collect email addresses whenever someone visits. This allows you to market to them again in the future and is a very powerful tool. Use GetResponse, MailChimp, or AWeber as your autoresponder. You can also use SumoMe for pop-up windows that will let you collect email addresses.

Step 6: Monetize Finally, make sure your site is monetized. *Blogging: the Millionaire Blogger* by Dvir Oren, Thomas Black, 2016-12-07. Blogging: Learn How You Can Start A Million Dollar Blog Today.
