Elsevier's Dictionary of Trees M.M. Grandtner,2005-04-08 This dictionary will present all currently accepted generic specific sub specific and variety names of trees excluding fossil and more recently extinct taxa hybrids and cultivars Only the indigenous trees of a continent those wild species that were natural elements of the spontaneous forest vegetation before the arrival of Europeans or other colonizers are included Each generic entry includes the family to which it is assigned the synonyms of the Latin name and the English French Spanish trade and other names For the English and French names the standard name is listed first followed by other available names with in parentheses the countries where they are used Where appropriate names in additional languages are also included Each infrageneric species subspecies variety entry includes in addition the distribution height type of foliage ecological characteristics and main uses of the tree when available In this volume only taxa indigenous on the North American continent are included considered in a geographical not in a political sense This means from Alaska and Greenland to Panama including Caribbean but excluding Hawaii *Dictionary of Trees, Volume 2: South America* M.M. Grandtner,Julien Chevrette,2013-09-21 Dictionary of South American Trees provides a single source reference for botanists biologists ecologists and climatologists on the many native trees in South America The index lets readers find a tree in four languages by its common name or abbreviation followed by taxonomy that includes common uses for each part of the tree Using this information scientists and students can identify and classify plants their growth structure and environment the uses of their products and alternative options with similar characteristics Complete coverage of all native South American trees the only single source reference for botanists biologists ecologists and climatologists working in this diverse and changing region Includes taxonomy at genera species sub species and varietal levels providing information from the most basic level up and allowing readers to identify their subjects using numerous criteria Indicates Latin English French and Spanish names as well as common names and abbreviations facilitating accurate and efficient identification Provides growth information climatology ecology and uses for the tree to provide insight into each tree as well as for comparative purposes when seeking similar tree based resources **Elsevier's Dictionary of Trees** M.M. Grandtner,2005-06-06 This dictionary will present all currently accepted generic specific sub specific and variety names of trees excluding fossil and more recently extinct taxa hybrids and cultivars Only the indigenous trees of a continent those wild species that were natural elements of the spontaneous forest vegetation before the arrival of Europeans or other colonizers are included Each generic entry includes the family to which it is assigned the synonyms of the Latin name and the English French Spanish trade and other names For the English and French names the standard name is listed first followed by other available names with in parentheses the countries where they are used Where appropriate names in additional languages are also included Each infrageneric species subspecies variety entry includes in addition the distribution height type of foliage ecological characteristics and main uses of the tree when available In this volume only taxa indigenous on the North

American continent are included considered in a geographical not in a political sense This means from Alaska and Greenland to Panama including Caribbean but excluding Hawaii *Elsevier's Dictionary of Trees and Shrubs* Hugues Vaucher,1986 In scientific and commercial usage a plant is designated by its Latin name That is the simplest and most logical method and the only one precluding misunderstandings among professionals from all parts of the world The layman however knows the plants mainly by their common designations and these vary from region to region and from country to country One of the objectives of this work is therefore to simplify the correlation between the popular and the scientific names The reader can find quickly and conveniently the Latin name of each tree or shrub A unique feature of this book is that for each genus and species the author has mentioned its family country of origin and some botanical characteristics This multilingual dictionary comprises approximately 2 300 Latin names subdivided into 140 families 510 genera 1 650 species and varieties together with their common denominations in English French German and Italian The vast majority of the trees and shrubs mentioned are to be found in the temperate zones of the Northern and Southern hemispheres Only a small number of trees typical of subtropical climates have been included Being both a working tool and a reference book this dictionary is intended not only for the professional but also for the layman wishing to extend his knowledge of the common names of the innumerable trees and shrubs growing on our planet

A Dictionary of Trees Frederic F. Walden,1977 [Dictionary for Managing Trees in Urban Environments](#) Danny B. Draper,Peter A. Richards,2009 This dictionary contains a complete list of terms used in the universal management of urban trees Many of the terms are from arboricultural science while others are derived from unproven but commonly applied concepts Some new concepts have been introduced where the existing terminology to describe trees was limited or nonexistent In many texts concepts are only partly defined and so uncertainty can remain as to their exact meaning Here the dictionary aims to provide clarity

Elsevier's Dictionary of Trees and Shrubs in Latin, German, English, French and Italian H. Vaucher,1986-01-01 *Dictionary of Trees* Fred Walden,1995-12 **A Dictionary of Trees** Frederic F. Walden,F. R. J. Walden,1963 **Colour Dictionary of Trees and Shrubs** Peter McHoy,1985 **A New Tree Biology Dictionary** Alex L. Shigo,1986 [An Historical Dictionary of Forestry and Woodland Terms](#) N. D. G. James,1991 An Historical Dictionary of Forestry and Woodland Terms describes the special words used by those working or hunting in England s woodlands and forests from the early Middle Ages until the present The author does not simply give the meanings of words he describes the customs and practices to which they refer and frequently adds quotations from contemporary sources the latter ranging from medieval royal charters and Shakespeare s *As You Like It* to such books as Taylor s *Common Good* or the *Emprovements of Commons* 1652 John Evelyn s *Sylva* 1664 and Jefferies s *Wildlife in a Southern County* 1879 From this dictionary the reader will not only learn the meaning of such terms as pismires perambulation furlong and quaking ash but will find brief histories of the forest courts of the Middle Ages and the lawing of dogs Long entries describe such complex procedures as bark stripping dishing and dressing and the care and exploitation of

coppice Many words and practices described here survived until the recent past and some are still in use today This unique book will be welcomed by everyone interested in the history of English rural life in which woodlands and forests have played over the centuries such a vital role The entries are fully referenced and illustrated where appropriate with line drawings
