**American-Australian Cinema** Adrian Danks, Stephen Gaunson, Peter C. Kunze, 2018-01-29 This edited collection assesses the complex historical and contemporary relationships between US and Australian cinema by tapping directly into discussions of national cinema transnationalism and global Hollywood While most equivalent studies aim to define national cinema as independent from or in competition with Hollywood this collection explores a more porous set of relationships through the varied production distribution and exhibition associations between Australia and the US To explore this idea the book investigates the influence that Australia has had on US cinema through the exportation of its stars directors and other production personnel to Hollywood while also charting the sustained influence of US cinema on Australia over the last hundred years It takes two key points in time the 1920s and 1930s and the last twenty years to explore how particular patterns of localism nationalism colonialism transnationalism and globalisation have shaped its course over the last century The contributors re examine the concept and definition of Australian cinema in regard to a range of local international and global practices and trends that blur neat categorisations of national cinema Although this concentration on US production or influence is particularly acute in relation to developments such as the opening of international film studios in Melbourne Sydney Adelaide and the Gold Coast over the last thirty years the book also examines a range of Hollywood financed and or conceived films shot in Australia since the 1920s

Kate Burridge, Professor of Linguistics, Monash University. [Mad Max and Philosophy](#) Matthew P. Meyer, David Koepsell, 2024-03-20. Explore the philosophy at the core of the apocalyptic future of Mad Max. Beneath the stylized violence and thrilling car crashes, the Mad Max films consider universal questions about the nature of human life, order, and anarchy, justice, and moral responsibility, society, and technology, and ultimately human redemption. In *Mad Max and Philosophy*, a diverse team of political scientists, historians, and philosophers investigates the underlying themes of the blockbuster movie franchise, following Max as he attempts to rebuild himself and the world around him. Requiring no background in philosophy, this engaging and highly readable book guides you through the barren wastelands of a post-apocalyptic future as you explore ethics and politics in *The Wasteland*, the importance of costumes and music, humankind's relationship with nature, commerce, gender, religion, madness, and much more. Covers all of George Miller's Mad Max films, including *Mad Max: Fury Road*. Discusses connections between Mad Max and Nietzsche, Malthus, Mill, Foucault, Sartre, and other major philosophers. Follows Max's journey from policeman and family man to lost soul in search of redemption. Examines the future of technology and possible impacts on society, the environment, and access to natural resources. Delves into feminist themes of Mad Max, such as the reversal of heroic gender roles in *Fury Road* and relationships between power and procreation. Part of the bestselling Blackwell Philosophy and Pop Culture series, *Mad Max and Philosophy: Thinking Through the Wasteland* is a must-read for anyone wanting to philosophically engage with Max, Furiosa, and their dystopian world.

**Australian Indigenous Hip Hop** Chiara Minestrelli, 2016-10-26. This book investigates the discursive and performative strategies employed by Australian Indigenous rappers to make sense of the world and establish a position of authority over their identity and place in society. Focusing on the aesthetics, the language, and the performativity of Hip Hop, this book pays attention to the life stance, the philosophy, and the spiritual beliefs of Australian Indigenous Hip Hop artists as global producers and consumers. With Hip Hop as its main point of analysis, the author investigates, interrogates, and challenges categories and preconceived ideas about the critical notions of authenticity, Indigenous and dominant values, spiritual practices, and political activism. Maintaining the emphasis on the importance of adopting decolonizing research strategies, the author utilizes qualitative and ethnographic methods of data collection, such as semi-structured interviews, informal conversations, participant observation, and fieldwork notes.

Collaborators and participants shed light on some of the dynamics underlying their musical decisions and their view within discussions on representations of Indigenous identity and politics Looking at the Indigenous rappers local and global aspirations this study shows that by counteracting hegemonic narratives through their unique stories Indigenous rappers have utilised Hip Hop as an expressive means to empower themselves and their audiences entertain and revive their Elders culture in ways that are contextual to the society they live in
