**The Role of Domestic Courts in Treaty Enforcement** David Sloss, 2009-10-12 This book examines the application of treaties by domestic courts in twelve countries The central question is whether domestic courts actually provide remedies to private parties who are harmed by a violation of their treaty based rights The analysis shows that domestic courts in eight of the twelve countries Australia Canada Germany India the Netherlands Poland South Africa and the United Kingdom generally do enforce treaty based rights on behalf of private parties On the other hand the evidence is mixed for the other four countries China Israel Russia and the United States In China Israel and Russia the trends are moving in the direction of greater judicial enforcement of treaties on behalf of private parties The United States is the only country surveyed where the trend is moving in the opposite direction U S courts reluctance to enforce treaty based rights undermines efforts to develop a more cooperative global order

**What Is a Family Justice System For?** Mavis Maclean, Rachel Treloar, Bregje Dijksterhuis, 2022-08-25 Does a justice system have a welfare function If so where does the boundary lie between justice and welfare and where can the necessary resources and expertise be found In a time of austerity medical emergency and limited public funding this book explores the role of the family justice system and asks whether it has a function beyond decision making in dispute resolution Might a family justice system even help to prevent or minimise conflict as well as resolving dispute when it arises The book is divided into 4 parts with contributions from 22 legal scholars working across Europe Australia Argentina and Canada Part 1 looks at what constitutes a family justice system in different jurisdictions and how a welfare element is included in the legal framework Part 2 looks at those engaged with a family justice system as professionals and users and explores how far private ordering is encouraged in different countries Part 3 looks at new ways of working within a family justice system and raises the question of whether the move towards privatisation derives from the intrinsic value of individual autonomy and acceptance of responsibility in family disputes or whether it is also a response to the increasing burden on the state of providing a welfare minded family justice system Part 4 explores recent major changes of direction for the family justice systems of Australia Argentina Turkey Spain and Germany

Prest, Sharyn L. Roach Anleu, 2004 Litigation does not have a good press in fact it is usually viewed very negatively Rates of litigation in Western countries are claimed to be spiralling beyond control and this is said to indicate a fundamental crisis in contemporary Western societies Litigation Past and Present sheds some much needed light on these views by examining actual patterns of litigation both historical and contemporary and considering the many ways in which courts provide strategies for social change and social justice Topics surveyed include the long range recording of litigation rates the social uses of legal action the effectiveness of procedural reforms in reducing litigation and the impact of legal proceedings and activism on Indigenous rights and on marriage and family issues Litigation and its impact are too often discussed in excessively rhetorical and pragmatic terms This volume with contributions from internationally recognised scholars adds much needed empirical research and theoretical perspectives to the discussion The Annotated Constitution of the Australian Commonwealth Sir John Quick, Sir Robert Garran, 1901 *The Judicial Power of the Commonwealth* Australia. Law Reform Commission, Australian Law Reform Commission, 2001 The terms of reference required the Commission to inquire into and report on whether the provisions governing the exercise of the judicial power of the Commonwealth in civil matters which are contained in the Judiciary Act and related Acts establish and apply the most appropriate arrangements for the efficient administration of law and justice in the exercise of federal jurisdiction The Commission also was charged with the task of reporting on whether any changes to the law are desirable having regard to constitutional limitations on the exercise of the judicial power of the Commonwealth *Harvard Law Review*, 1925 *American Precedents in Australian Federation* Erling Messer Hunt, 1930 The superficial resemblance of the Australian to the American Constitution is obvious Both organize a federal government Both separate that government into three branches Both establish a legislature composed of a house of representatives elected on a popular basis and a senate in which the states are equally represented Both provide for a supreme or high court and empower the federal legislature to establish a system of inferior federal courts Both constitutions delegate large powers many of which are the same in the two documents to the federal government reserving the powers not so delegated to the states composing the union Both carefully guarantee the integrity of these states and preserve to them large and essential powers An attempt has been made in this study to discover what the makers of the Australian Constitution knew about American institutions and to what extent they deliberately followed American precedents and were conscious of the resemblances of the two constitutions It will be obvious that other governments than that of the United States particularly those of Great Britain and Canada contributed greatly to the making of the Australian Constitution It has not however been the primary object of this study to trace influences other than American p 5 **Responsible Government in the Dominions: The Territorial Limitation on Dominion**
