## **Australian Inspiration:**

**Out of Australia** Steven Strong, Evan Strong, 2017-03-01 In their startling new book Steven and Evan Strong challenge the out of Africa theory Based on fresh examination of both the DNA and archeological evidence they conclude that modern humans originated from Australia not Africa The original Australians referred to by some as Aborigines like so many indigenous peoples are portrayed as backward and primitive Yet as the Strongs demonstrate original Australians had a rich culture which may have sown the first seeds of spirituality in the world They had the technology to make international seafaring voyages and have left traces in the Americas and possibly Japan Southern India Egypt and elsewhere They practiced brain surgery invented the first hand tools and had knowledge of penicillin This book brings together 30 years of intensive research in consultation with elders in the original Australian community Among their conclusions are the following There is evidence that humans existed in Australia 40 000 years before they existed in Australia There were migrations of original Australians in large boats throughout the Indian Pacific rim Three distinct kinds of Homo sapiens are found in Australia There is evidence from the Americas that debunks the out of Africa theory The spiritual influence of the Aborigines is reflected in the religions of the world

**Outside In** Andrew Preston, Doug Rossinow, 2016-11-15 These original essays exemplify how the transnational history of the United States is being written today The authors offer fresh work that focuses on the circuits of border crossing activity that Americans have inhabited while still taking the nation state seriously *Alcohol, Binge Sobriety and Exemplary Abstinence* Julie Robert, 2022-03-24 Where did Temporary Sobriety Initiatives TSIs such as Dry January FebFast and October come from And what is their role if any in prompting people to revisit their relationship with alcohol These organized campaigns have flourished throughout the English speaking world in the past decade Collectively they involve thousands of participants and raise substantial sums of money for medical research as well as drug and alcohol related charities Alcohol

Binge Sobriety and Exemplary Abstinence considers these campaigns as part of a lifestyle movement that transcends single events and even singular national contexts It uses case studies from Australia the USA and the UK to examine both the short history of TSIs as a response to problematic localized drinking cultures including binge drinking and their relationship to a much longer and transnational history of temperance activism In taking TSIs as a case study of both embodied philanthropy and participatory health promotion this book considers how TSIs are structured promoted and experienced as an embodied event to create imitable and sometimes contradictory examples to create a public pedagogy of responsible drinking
