Arctic Interlude Harry C. Hutson,1998-04 **Contours of the Nation** Deborah McPhail,2017-10-31 The obesity epidemic that is said to plague nations around the world including Canada is not solely a medical condition to be managed In Canada the discourse on obesity emerged during a time of social upheaval in the postwar period *Contours of the Nation* is the first book which historically explores obesity in Canada from a critical perspective Deborah McPhail demonstrates how obesity as a problem was affixed to particular populations in order to separate true Canadians from others She reveals how the articulation of obesity contributed to the Canadian colonial project in the North where Indigenous peoples were viewed as modern Canadians due to their obesity thereby negating any special claims to northern lands *Contours of the Nation* successfully demonstrates how histories can trace the actual materialization of bodies through relations of power particularly those pertaining to race gender and nation

Literary Cold War, 1945 to Vietnam Adam Piette,2009-05-25 This is a ground breaking study of the psychological and cultural impact of the Cold War on the imaginations of citizens in the UK and US The *Literary Cold War* examines writers working at the hazy borders between aesthetic project and political allegory with specific attention being paid to Vladimir Nabokov and Graham Greene as Cold War writers The book looks at the special relationship as a form of paranoid plotline governing key Anglo American texts from Storm Jameson to Sylvia Plath and Ted Hughes as well as examining the figure of the non aligned neutral observer caught up in the sacrificial triangles structuring cold war fantasy The book aims to consolidate and define a new emergent field in literary studies the literary Cold War following the lead of prominent historians of the period

Stalin's Slave Ships Martin J. Bollinger,2003-09-30 Between 1932 and 1953 a fleet of ordinary cargo ships was pressed into extraordinary service The fleet s task was to relocate approximately one million forced laborers to the Soviet Gulag in Kolyma located along the Arctic Circle in far northeastern Siberia The Kolyma Gulag the most infamous in the Soviet Union was accessible only by sea and the fleet became the lifeblood of the entire operation As one of the largest seaborne movements of people in history this

transport took a devastating toll on human lives Bollinger presents the often horrific stories of the Gulag fleet and its passengers and reveals the unwitting role of the United States government in the operation U S shipyards built most of the Gulag fleet and the U S government sold many of the ships used in the transport directly to an agent of the Soviet Union The United States also overhauled and repaired many ships in the Gulag fleet free of charge at the midpoint of their Gulag careers In some cases free ships provided to the Soviet Union under the Lend Lease military assistance program were diverted into Gulag transport duties How much did Washington know about the deadly duty of these ships How many prisoners made the voyage How many never made it out alive Bollinger details this tragic tale using firsthand testimony from those involved in the operation and materials from both American and Russian archives

World War I in Central and Eastern Europe Judith Devlin,John Paul Newman,Maria Falina,2018-07-30 In the English language World War I has largely been analysed and understood through the lens of the Western Front This book addresses this imbalance by examining the war in Eastern and Central Europe The historiography of the war in the West has increasingly focused on the experience of ordinary soldiers and civilians the relationships between them and the impact of war at the time and subsequently This book takes up these themes and engaging with the approaches and conclusions of historians of the Western front examines wartime experiences and the memory of war in the East Analysing soldiers letters and diaries to discover the nature and impact of displacement and refugee status on memory this volume offers a basis for comparison between experiences in these two areas It also provides material for intra regional comparisons that are still missing from the current research Was the war in the East wholly other Were soldiers in this region as alienated as those in the West Did they see themselves as citizens and was there continuity between their pre war or civilian and military identities And if in the Eastern context these identities were fundamentally challenged was it the experience of war itself or its consequences in the shape of imprisonment and displacement and changing borders that mattered most How did soldiers

and citizens in this region experience and react to the traumas and upheavals of war and with what consequences for the post war era In seeking to answer these questions and others this volume significantly adds to our understanding of World War I as experienced in Central and Eastern Europe The Health of the Eskimos Robert Fortuine,1968 A bibliography of articles monographs and books relating to the health of the North American Eskimo intended for the use of medical scientists and health administrators dealing with health problems in the north **The Royal Navy in World War II** Derek G.
