## **Australian Profile:**

*Profile Pieces* Sue Joseph, Richard Lance Keeble, 2015-10-14 This book examines the history theory and journalistic practice of profile writing Profiles and the practice of writing them are of increasing interest to scholars of journalism because conflicts between the interviewer and the subject exemplify the changing nature of journalism itself While the subject often through the medium of their press representative struggles to retain control of the interview space the journalist seeks to subvert it This interesting and multi layered interaction however has rarely been subject to critical scrutiny partly because profiles have traditionally been regarded as public relations exercises or as soft journalism However chapters in this volume reveal not only that profiling has historically taken many different forms but that the idea of the interview as a contested space has applications beyond the subject of celebrated individuals The volume looks at the profile s historical beginnings at the contemporary manufacture of celebrity versus the ordinary at profiling communities countries and movements at profiling the destitute at sporting personalities and finally at profiling and trauma

Structural Engineering, Mechanics and Computation A. Zingoni, 2001-03-16 Following on from the International Conference on Structural Engineering Mechanics and Computation held in Cape Town in April 2001 this book contains the Proceedings in two volumes There are over 170 papers written by Authors from around 40 countries worldwide The contributions include 6 Keynote Papers and 12 Special Invited Papers In line with the aims of the SEMC 2001 International Conference and as may be seen from the List of Contents the papers cover a wide range of topics under a variety of themes There is a healthy balance between papers of a theoretical nature concerned with various aspects of structural mechanics and computational issues and those of a more practical nature addressing issues of design safety and construction As the contributions in these Proceedings show new and more efficient methods of structural analysis and numerical computation are being explored all the time while exciting structural materials such as glass have recently come onto the scene Research interest in the repair and rehabilitation of existing infrastructure continues to grow particularly in Europe and North America while the challenges to protect human life and property against the effects of fire earthquakes and other hazards are being addressed through the development of more appropriate design methods for buildings bridges and other engineering structures

Staying Ahead Of The Competition: How Firms Really Manage Their Competitive Intelligence And Knowledge; Evidence From A Decade Of Rapid Change Chris Hall, Babette Bensoussan, 2007-10-08 This book is essential reading for any manager who has to make competitive decisions decisions which affect the competitive success of a corporation or business unit The book is unique in that it is based on detailed research spanning a decade of dramatic competitive change Thanks to the internet globalization technological and demographic change the velocity of competition is increasing and competitive decisions have to be made faster The book however shows that many senior managers are unprepared and unable to meet quite common competitive challenges even half the time Moreover many firms have developed cultures where people do not trust each other with

information critical to competitive success Employees can spend more time competing with one another for the bonus pool than dealing with the real competitive forces This book will equip managers with the intelligence and knowledge they need to make good competitive decisions at all levels of the organization The Antiquity of Man Sir Arthur Keith,1925
