Autobiography Of Henry Merrell:

The Autobiography of Henry Merrell Henry Merrell, 1991 *Henry Merrell Memoirs* Henry Merrell, 1863 Photocopies of memoirs written by Henry Merrell in 1863 and 1873 The first volume written in 1863 in Pike County Ark was written in the margins and end pages of an 1852 edition of David Dale Owen's Report of a Geological Survey of Wisconsin Iowa and Minnesota The second volume was completed in Camden Ark in 1873 The memoirs relate to Merrell's industrial endeavors as well as to the Civil War in Arkansas

Technology, Innovation, and Southern Industrialization Susanna Delfino, Michele Gillespie, 2008 Because of its strong agrarian roots the South has typically been viewed as a region not favorably disposed to innovation and technology Yet innovation was never absent from industrialization in this part of the United States From the early nineteenth century onward southerners were as eager as other Americans to embrace technology as a path to modernity This volume features seven essays that range widely across the region and its history from the antebellum era to the present to assess the role of innovations presumed lacking by most historians Offering a challenging interpretation of industrialization in the South these writings show that the benefits of innovations had to be carefully weighed against the costs to both industry and society The essays consider a wide range of innovative technologies Some examine specific industries in subregions steamboats in the lower Mississippi valley textile manufacturing in Georgia and Arkansas coal mining in Virginia and sugar planting and processing in Louisiana Others consider the role of technology in South Carolina textile mills around the turn of the twentieth century the electrification of the Tennessee valley and telemedicine in contemporary Arizona marking the expansion of the region into the southwestern Sunbelt Together these articles show that southerners set significant limitations on what technological innovations they were willing to adopt particularly in a milieu where slaveholding agriculture had shaped the allocation of resources They also reveal how scarcity of capital and continued reliance on agriculture influenced that allocation into the twentieth century relieved eventually by federal spending during the Depression and its aftermath that sparked the Sunbelt South's economic boom

Technology Innovation and Southern Industrialization clearly demonstrates that the South's embrace of technological innovation in the modern era doesn't mark a radical change from the past but rather signals that such pursuits were always part of the region's economy It deflates the myth of southern agrarianism while expanding the scope of antebellum American industrialization beyond the Northeast and offers new insights into the relationship of southern economic history to the region's society and politics

The Conquest of Labor Curtis J. Evans, 2014-12-12 The Conquest of Labor offers the first biography of Daniel Pratt 1799-1873 a New Hampshire native who became one of the South's most important industrialists After moving to Alabama in 1833 Pratt started a cotton gin factory near Montgomery that by the eve of the Civil War had become the largest in the world Pratt became a household name in cotton growing states and Prattville the site of his operations one of the antebellum South's most celebrated manufacturing towns Based on a rich cache of personal and business records Curtis J

Evans's study of Daniel Pratt and his Yankee town in the heart of the Deep South challenges the conventional portrayal of the South as a premodern region hostile to industrialization and shows that contrary to current popular thought the South was not so markedly different from the North

The Bulloch Belles Walter E. Wilson, 2015-09-18 The Bulloch women of Roswell Georgia were not typical antebellum Southern belles Most were well educated world travelers skilled at navigating social circles far outside the insular aristocracy of the rural South Their lives were filled with intrigue espionage scandal adversity and perseverance During the Civil War they eluded Union spies on land and blockaders at sea and afterwards they influenced the national debate on equal rights for women The impact of their Southern ideals increased exponentially when they integrated into the Roosevelt family of New York Drawing on primary sources this book provides new insight into the private lives of the women closely linked with the Bulloch family They include four first ladies a Confederate spy the mother of President Teddy Roosevelt and a number of his closest confidants Nancy Jackson the family's nursemaid slave is among the less well known but equally fascinating Bulloch women

Black Flag Over Dixie Gregory J. W. Urwin, 2005-08-29 Black Flag over Dixie Racial Atrocities and Reprisals in the Civil War highlights the central role that race played in the Civil War by examining some of the ugliest incidents that played out on its battlefields Challenging the American public's perception of the Civil War as a chivalrous family quarrel twelve rising and prominent historians show the conflict to be a wrenching social revolution whose bloody excesses were exacerbated by racial hatred Edited by Gregory J W Urwin this compelling volume focuses on the tendency of Confederate troops to murder black Union soldiers and runaway slaves and divulges the details of black retaliation and the resulting cycle of fear and violence that poisoned race relations during Reconstruction In a powerful introduction to the collection Urwin reminds readers that the Civil War was both a social and a racial revolution As the heirs and defenders of a slave society's ideology Confederates considered African Americans to be savages who were incapable of waging war in a civilized fashion Ironically this conviction caused white Southerners to behave savagely themselves Under the threat of Union retaliation the Confederate government backed away from failing to treat the white officers and black enlisted men of the United States Colored Troops as legitimate combatants Nevertheless many rebel commands adopted a no prisoners policy in the field When the Union's black defenders responded in kind the Civil War descended to a level of inhumanity that most Americans prefer to forget In addition to covering the war's most notorious massacres at Olustee Fort Pillow Poison Spring and the Crater Black Flag over Dixie examines the responses of Union soldiers and politicians to these disturbing and unpleasant events as well as the military legal and moral considerations that sometimes deterred Confederates from killing all black Federals who fell into their hands Twenty photographs and a map of massacre and reprisal sites accompany the volume The contributors are Gregory J W Urwin Anne J Bailey Howard C Westwood James G Hollandsworth Jr David J Coles Albert Castel Derek W Frisby Weymouth T Jordan Jr Gerald W Thomas Bryce A Suderow Chad L Williams and Mark Grimsley

opening rethinking of nineteenth century American history reveals the interdependence of the Northern industrial economy and Southern slave labor The industrializing North and the agricultural South that s how we have been taught to think about the United States in the early nineteenth century But in doing so we overlook the economic ties that held the nation together before the Civil War We miss slavery s long reach into small New England communities just as we fail to see the role of Northern manufacturing in shaping the terrain of human bondage in the South Using plantation goods the shirts hats hoes shovels shoes axes and whips made in the North for use in the South historian Seth Rockman locates the biggest stories in American history in the everyday objects that stitched together the lives and livelihoods of Americans white and Black male and female enslaved and free across an expanding nation By following the stories of material objects such as shoes made by Massachusetts farm women that found their way to the feet of a Mississippi slave Rockman reveals a national economy organized by slavery a slavery that outsourced the production of its supplies to the North and a North that outsourced its slavery to the South Melding business and labor history through powerful storytelling Plantation Goods brings northern industrialists southern slaveholders enslaved field hands and paid factory laborers into the same picture In one part of the country entrepreneurs envisioned fortunes to be made from planter s hoes and rural women spent their days weaving negro cloth and assembling slave brogans In another enslaved people actively consumed textiles and tools imported from the North to contest their bondage In between merchants marketers storekeepers and debt collectors laid claim to the profits of a thriving interregional trade Examining producers and consumers linked in economic and moral relationships across great geographic and political distances Plantation Goods explores how people in the nineteenth century thought about complicity with slavery while showing how slavery structured life nationwide and established a modern world of entrepreneurship and exploitation Rockman brings together lines of American history that have for too long been told separately as slavery and capitalism converge in something as deceptively ordinary as a humble pair of shoes
