Monroe Newborn, Monty Newborn

Bruce Weber:

Bruce Weber Bruce Weber, 1989 Bruce Weber became one of the preeminent photographers of the fashion industry in the 1980s. Leading designers such as Calvin Klein, Karl Lagerfeld, and Ralph Lauren employed his talents to define their brand image. Widely credited with elevating advertising photography to an art form, he continues to be one of the world's most popular commercial photographers. In addition to his commercial work, however, Weber has published several books of his photographs, made several films, and had his work exhibited in museums and galleries throughout the world. The collection of photographs presented in this portfolio is testimony to his achievements and to the range of his talents. Whether interiors, landscapes, bold sexy male nudes, or erotic yet nostalgic takes on American adolescence, the reader will be dazzled with the breadth of Weber's contributions on display.

Bruce Weber Bruce Weber, Mark Tupper, 2005 Millions of fans watched the memorable University of Illinois basketball team put the stamp of unselfishness on the 2004-05 college basketball season. It was a team that equaled the NCAA's all-time record of 37 victories while spending 15 weeks as the No. 1 ranked team in America. Fourteen players and a five-man coaching staff helped make it happen. But just one person, head coach Bruce Weber, sat in the cockpit while this amazing Illini team took its fans on an unforgettable jet ride. This is his story from Bruce Weber's unique viewpoint of the two-year process by which he helped transform a group of discouraged, disjointed basketball players into a family linked by a love for each other and a willingness to place team goals ahead of individual accomplishment. It's also the story of Weber's own emotional journey, one in which he had to sell himself to players and fans alike, one that forced him to deal with serious internal issues and his own personal tragedy.

You Can Yo-Yo! Bruce Weber, 1998 Presents a brief history of the yo-yo with tips on care and techniques as well as step-by-step instructions for basic to advanced tricks.

Deep Blue Monty Newborn, 2013-03-20's a competitor of the Deep Blue team. I had mixed emotions as I watched their chess-playing machine defeat World Chess Champion Garry Kasparov during their 1997 Rematch. On the one hand, it meant that our MIT program, Socrates, would not be the first program to defeat a human World Chess Champion. On the other hand, I felt great admiration for the monumental engineering accomplishment that Deep Blue's victory represented and proud for the small part that my own team had played in advancing computer chess research. After over 50 years of concerted effort to produce a chess-playing machine capable of beating the best human, Deep Blue finally attained the goal that so many computer scientists had sought. In this entertaining and informative book, Monty Newborn chronicles the story of Deep Blue from its origins as Chiptest at Carnegie Mellon University to its winning the Rematch as a top IBM research project. You do not have to be a chess player or a computer scientist to enjoy this marvelous tale of man and machine. Monty paints the characters of this drama in vivid colors, from the technical geniuses CB Hsu, Murray Campbell, and Thomas Anantharaman to the visionary manager CJ Tan. As only an insider can, Monty recreates the excitement of the event, including the IBM marketing hype and the marvelous compendium of editorial cartoons.
