Aesthetics and Language William R. Elton, 1954 **Aesthetics and Language** W. B. Gallie, 1954 **Aesthetics and Language** William Elton, 1954 **Aesthetics and Language** William Elton, 1954 **Art as Language** Garry Hagberg, 1998

Art as Language systematically considers the implications of the pervasive belief that art is a language or functions like language. This insightful book clarifies the similarities and differences between expression in speech and expression in art and examines Wittgenstein's work on language and mind as it applies to several prominent aesthetic theories. Working from a Wittgensteinian perspective, G. L. Hagberg opens with a reexamination of some of the foundational aesthetic theorists of the earlier part of the twentieth century, including R. G. Collingwood and Susanne Langer. He uncovers the sources of many contemporary issues in philosophical aesthetics and investigates the ways in which problems have been conceptualized and theoretical advances have been formulated. He then discusses the nature of linguistic intention and explores its significance for understanding artistic intention and creation. Here Hagberg draws on Wittgenstein's work on linguistic meaning and particularly on private language to provide a deeper understanding of artistic meaning. The book closes with an analysis of the issues raised by leading aesthetic philosophies in the post-Wittgensteinian years. Focusing on the work of Arthur Danto, George Dickie, and Joseph Margolis, Hagberg discusses the philosophical presumptions and hidden complexities in recent theories of artistic perception in theories concerning the nature of the art object and in the institutional conception of the arts. Throughout *Art as Language*, he tests the claims of aesthetics against artistic practices in order to rethink the fundamental positions of the most important aesthetic theories of the last century.

Aesthetics and Language: Essays William R. Elton, 1951 **Aesthetics and Language** William R. Elton, 1954 ***Aesthetics and Language*** William Elton (ed), 1954 **Aesthetic as Science of Expression and General Linguistic** Benedetto Croce, 2019-11-26

In *Aesthetic as Science of Expression and General Linguistic*, Benedetto Croce undertakes a profound exploration of aesthetics through the prism of expression and language. Croce articulates a philosophy of art that emphasizes the intrinsic connection between aesthetic feeling and expression, setting his work apart in the early 20th-century discourse surrounding aesthetics and linguistic theory. His literary style combines rigorous argumentation with a lyrical prose that illuminates the nuances of sensory experience and its representation, resonating with contemporary movements towards formalism and symbolic interactionism. Croce's theoretical framework not only addresses the nature of art but also situates it within a broader context of cultural and emotional experience, marking a pivotal shift in the understanding of aesthetics. Benedetto Croce, an influential Italian philosopher, historian, and critic, drew upon his extensive background in philosophy and his engagement with the vibrant cultural milieu of early 20th-century Italy to craft this significant work. His ideas were shaped by the tumultuous political landscape of his time and his commitment to idealism, which informed his belief in the centrality of artistic expression to human experience. His life and writings reflect a deep engagement with the interplay of art, thought, and

society which is vividly encapsulated in this text Aesthetic as Science of Expression and General Linguistic is essential for anyone seeking to deepen their understanding of aesthetics and its relevance to contemporary debates Croce s insights challenge readers to reconsider the relationship between art language and perception making it a vital resource for scholars students and enthusiasts of philosophy and the arts alike In this enriched edition we have carefully created added value for your reading experience A succinct Introduction situates the work s timeless appeal and themes The Synopsis outlines the central plot highlighting key developments without spoiling critical twists A detailed Historical Context immerses you in the era s events and influences that shaped the writing A thorough Analysis dissects symbols motifs and character arcs to unearth underlying meanings Reflection questions prompt you to engage personally with the work s messages connecting them to modern life Hand picked Memorable Quotes shine a spotlight on moments of literary brilliance Interactive footnotes clarify unusual references historical allusions and archaic phrases for an effortless more informed read

Language and Aesthetics Benjamin R. Tilghman,1973 **Language Aesthetics of Modern African Drama** Isaiah Ilo,2013-11-13 The goal of this book is to initiate theoretical discussions on the popular subject of African literary language and the thrust of the contribution apart from theory building is the introduction of the Post indiginist concept next to the well known essentialist and hybrid concepts The study outlines a set of criteria for each aesthetic concept so that literary analysis based on the criteria will verify whether or not they are adequate

for understanding explaining and describing African writers language usage It is expected that a language aesthetic theory in the African context may help in the study of individual writers styles and equally address a neglect of descriptive studies in African literary scholarship **Aesthetic as Science of Expression and General Linguistic** BENEDETTO.

The Theory of Language Holography Guanlian Qian, 2021-06-29. This book presents a method of linking the ordered structure of the cosmos with human thoughts, the theory of language holography. In the view presented here, the cosmos is in harmony with the human body and language, and human thoughts are holographic with the cosmos at the level of language. In a word, the holographic relation is nothing more than the bridge by means of which Guanlian Qian connects the cosmos, human, and language. This is a vitally important contribution to linguistic and philosophical studies that cannot be ignored. The book has two main focus areas: outer language holography and inner language holography. These two areas constitute the core of the dynamic and holistic view put forward in the theory of language holography. The book's main properties can be summarized into the following points: First and foremost, it is a book created in toto by a Chinese scholar devoted to pragmatics, theoretical linguistics, and philosophy of language. Secondly, the book was accepted by a top Chinese publisher and was republished the second year, which reflected its value and appeal. Thirdly, in terms of writing style, the book is characterized by succinctness and logic. As a result, it reads fluidly and smoothly without redundancies, which is not that common in linguistic or even philosophical works. Lastly, as stated by the author in the

introduction Creation is the development of previous capacities but it is also the generation of new ones this book can be said to put this concept into practice Overall the book offers a unique resource to readers around the world who want to know more about the truly original and innovative studies of language in Chinese academia Oral Traditions in Southern Africa: Aesthetics, language, and literature Steven Phaniso Chinombo Moyo, Tobias W.
