Amor Psyche:

Das Märchen von Amor und Psyche in seinem Fortleben in der französischen, italienischen und spanischen Literatur bis zum 18. Jahrhundert Balthasar Stumfall,1907 Women and Desire Polly Young-Eisendrath,2023-02-08 Polly Young

Eisendrath's *Women and Desire Beyond Wanting to Be Wanted* was first published by Harmony Books in 1999. Since then it has become a classic read for those readers to use a cinematographic expression who want to use analytical psychology to shed light on what women want. This book when first published was described and still is as provocative and vital. More than 20 years after its publication this book still shows effectively how to break out of this double bind so that women can encounter the challenges of choice and responsibility for our own desires. The author wisely uses mythological and personal stories to help us take control of our sexual relational material and spiritual lives. Therefore, if you feel confused, resentful, or trapped in a life that does not seem to be fully yours, then you can find a clear path to your true self once and for all with the help of *Women and Desire*. This book is the second of the series titled *Jungian Re-Covered Classics in Analytical Psychology* curated by Stefano Carpani. Cupid and Psyche Apuleius,2021-11-07

Cupid and Psyche Apuleius. *Cupid and Psyche* is a story from the Latin novel *Metamorphoses* also known as *The Golden Ass* written in the 2nd century AD by Apuleius. It concerns the overcoming of obstacles to the love between Psyche, Soul or Breath of Life, and Cupid, Desire, and their ultimate union in a sacred marriage. **Integrative Art Therapy and Depression** Vibeke Skov,2015-02-21 Laying out a new integrative approach to the treatment of depression, this book looks at the biological, psychological, social, and spiritual dimensions of clinical art therapy. Skov presents the theoretical foundation for a Jungian approach to art therapy and depression together with its clinical methodology and framework, outlining a procedure for working with people with mild to moderate depression. Integrative art therapy in clinical practice is introduced alongside case studies from the author's research and practice to show how transformative processes operate in the field between the conscious and the unconscious part of the psyche. Finally, the author lays out her research methodology and discusses the possible implications of the integrative art therapy approach. This revolutionary approach, which places equal importance on both art therapy and psychology in the treatment of depression, will be a valuable resource for all art therapists and students working with clients and patients who suffer from depression. Psychologists, psychotherapists, counsellors, and other mental health professionals will also find it of interest.

Shame and Creativity Vibeke Skov,2017-08-23 *Shame and Creativity: From Affect Towards Individuation* is about shame and the ways in which we can use creative methods to transform shame into a lifelong process of self-development. Using a Jungian understanding of the personal and collective unconscious, shame is described as a key affect in relation to self-worth and quality of life. The book is divided into three parts. Part One is about shame based on affect theory, Jungian psychology, and psychological creativity. Part Two discusses shame in relation to seven primary affects, introducing the Blue Diamante model to describe how shame is often hidden behind other affects and suggesting that all

affects must be involved in processing shame Part Three identifies the steps in the Blue Diamante model with the ancient myth of Inanna's descent to the underworld it discusses the development of the original self behind shame and presents a new model for transforming the relationship between the masculine and feminine aspects of the psyche together with art therapy methods The originality of Shame and Creativity lies in its combination of affect theory Jungian psychology and a creative methodology It aims to inspire clinicians to recognize shame and to work more directly with shame as it appears in therapy The book will be of great interest to art therapists and students of art therapy It will also appeal to all readers interested in creativity shame Jungian analysis and affect theory

Caroline Lillian Schopp, 2025-12-22 A novel approach to performance art and its history that revisits Viennese Actionism one of the most controversial episodes of the 1960s Viennese Actionism represents a notorious case within art history often cited but little studied especially in the United States By carefully looking at the unsettling performances that define this movement Caroline Lillian Schopp offers a vital corrective to the narrative Schopp observes that contrary to the reception of their graphic violence many performances explore passivity vulnerability and dependence in gestures of in action Viennese Actionism registers hesitations about the liberatory ethos of the 1960s amplified by Austria's marginalized postwar social and artistic culture In dialogue with feminist theory In action assembles a vocabulary for performance art without the standards of self assertion emancipation and expressive action that continue to inform how art and politics are understood today Decentering the traditional focus on the male protagonists of Viennese Actionism G nter Brus Otto Muehl Hermann Nitsch and Rudolf Schwarzkogler Schopp draws attention to women who performed with them including Anna Brus Hanel Koeck and Ingrid Wiener Doing so brings into view how these performances scrutinize intimate relationships like marriages partnerships and friendships as well as the conventions of traditional artistic media such as
