A Visual Approach To Park Design:

A Visual Approach to Park Design Albert J. Rutledge, 1985
Rutledge, 1981

People Places Clare Cooper Marcus, Carolyn Francis, 1997-09-03
people places Second Edition Design Guidelines for Urban Open Space edited by Clare Cooper Marcus and Carolyn Francis
A resurgence in the use of public space continues throughout North America and many other parts of the world
Neighborhoods have become more outspoken in their demands for appropriate park designs
corporations have witnessed the value of providing outdoor spaces for employee lunch hour use
the rising demand for child care has prompted increased awareness of the importance of developmentally appropriate play and learning environments
and increased attention is being focused on the specific outdoor space needs for the elderly college students and hospital patients and staff
Now available in an updated expanded second edition
People Places is a fully illustrated award winning book that offers research based guidelines and recommendations for creating more usable and enjoyable public open spaces of all kinds
People Places analyzes and summarizes existing research on how urban open spaces are actually used offering design professionals and students alike an easily understood easily applied guide to creating people friendly places
Seven types of urban open space are discussed urban plazas neighborhood parks miniparks and vest pocket parks campus outdoor spaces outdoor spaces in housing for the elderly child care outdoor spaces and hospital outdoor spaces
People Places contains a chapter by chapter review of the literature illustrative case studies and design guidelines specific to each type of space
People Places has a number of features that can be easily incorporated into the design process
Clear readable translations of existing research on people's use of outdoor spaces
Performance based design recommendations that specify key relationships between design and use
Design review checklists that help readers plan and critique designs
A clearly organized concise format equally useful to the design practitioner and the design student
The newly revised edition of People Places also includes Discussion of accessibility issues including ADA regulations and the concept of universal design and of design responses aimed at crime reduction
Procedures for conducting post occupancy evaluations of designed outdoor spaces
Updated and new information on each type of outdoor space with special attention to hospitals child care facilities and campus outdoor spaces where specific advances have occurred since 1990
A completely new color photo section and 50 new black and white illustrations
Winner of the Merit Award in Communication from the American Society of Landscape Architects
People Places is an essential working tool for landscape architects and architects city planners urban designers neighborhood groups and anyone else concerned with the quality of urban open space

Landscape Architecture, 1999-07
Elements of Visual Design in the Landscape Simon Bell, 2013-03-01
Public concern about the landscape in particular its appearance is increasing all the time
For those charged with managing developing or conserving a wide range of landscapes it is a major task to take visual aspects into account
Elements of Visual Design in the Landscape presents a vocabulary of visual design structured in a logical and easy to follow

sequence It is profusely illustrated using both abstract and real examples taken from a wide range of international locations together with cross referencing between related principles and case studies demonstrating how the principles can be applied in practice The visual aspects of design have often been treated as cosmetic and therefore not meriting attention or purely subjective and therefore open to personal preference Few attempts have been made to explain how we see the landscape in any rational and structured way and to demonstrate how visually creative design and management can be undertaken This book aims to fill that gap *A Site Design Process* George E. Fogg,1986 *Landscape Architecture News Digest* ,1986

Responsive Environments Ian Bentley,1985 The authors first examine what is meant by the concept of a responsive environment and then provide an illustrated step by step guide on how to achieve it in real life design The book demonstrates the specific characteristics that make for comprehensible and controllable places **Community By Design: New**

Urbanism for Suburbs and Small Communities Kenneth B. Hall, Jr.,Gerald A. Porterfield,2001-04-02 More than 50% of Americans live in suburban and exurban communities and populations are increasing as more people seek green spaces better access to education retirement living and homeownership Yet these communities with smaller budgets and no long term growth planning are unprepared for the problems traffic congestion poor air quality and strip malls to name a few that are now plaguing them Community by Design authored by two specialists in suburban and exurban design and development shows how to apply good planning practices to these smaller communities *A Concise Guide to Community Planning*

Gerald A. Porterfield,Kenneth B. Hall,1995 A quick one stop guide that shows readers the big picture for creating effective planning strategies and design solutions Generic urban plans typical street grids environmental checklists and other useful tools are enhanced with real life case studies of recent community development plans Illustrations and appendix with glossary are included *Nature's Crossroads* George Vrtis,Christopher W. Wells,2023-01-10 Minnesota's Twin Cities have long been powerful engines of change From their origins in the early nineteenth century the Twin Cities helped drive the dispossession of the region's Native American peoples turned their riverfronts into bustling industrial and commercial centers spread streets and homes outward to the horizon and reached well beyond their urban confines setting in motion the environmental transformation of distant hinterlands As these processes unfolded residents inscribed their culture into the landscape complete with all its tensions disagreements contradictions prejudices and social inequalities These stories lie at the heart of Nature's Crossroads The book features an interdisciplinary team of distinguished scholars who aim to open new conversations about the environmental history of the Twin Cities and Greater Minnesota [Landscape Architectural](#)

[Graphic Standards](#) Leonard J. Hopper,2012-02-24 The new student edition of the definitive reference on landscape architecture Landscape Architectural Graphic Standards Student Edition is a condensed treatment of the authoritative Landscape Architectural Graphic Standards Professional Edition Designed to give students the critical information they require this is an essential reference for anyone studying landscape architecture and design Formatted to meet the serious

student s needs the content in this Student Edition reflects topics covered in accredited landscape architectural programs making it an excellent choice for a required text in landscape architecture landscape design horticulture architecture and planning and urban design programs Students will gain an understanding of all the critical material they need for the core classes required by all curriculums including Construction documentation Site planning Professional practice Site grading and earthwork Construction principles Water supply and management Pavement and structures in the landscape Parks and recreational spaces Soils asphalt concrete masonry metals wood and recreational surfaces Evaluating the environmental and human health impacts of materials Like Landscape Architectural Graphic Standards this Student Edition provides essential specification and detailing information on the fundamentals of landscape architecture including sustainable design principles planting including green roofs stormwater management and wetlands constuction and evaluation In addition expert advice guides readers through important considerations such as material life cycle analysis environmental impacts site security hazard control environmental restoration and remediation and accessibility Visit the Companion web site wiley com go landscapearchitecturalgraphicstandards
