

Computers In The Primary School

Jon Griffin

Computers In The Primary School:

Information and Communications Technology in Primary Schools Richard Ager, 2013-08-21 This new edition takes into account advances in software and technology such as interactive whiteboards and digital cameras focusing upon how these new resources can be most effectively used to enhance teaching and learning in the classroom Providing the fundamental background information to put ICT developments into a classroom context the book looks at what can be learned from the latest national research into ICT use in the classroom and provides a wide range of classroom activities The book should be of particular interest to undergraduate and postgraduates Primary education students INSET participants ICT coordinators and senior managers

Computers in the Primary School Jon Griffin, 1995 Each of the contributors to this book writes from a different perspective on the same issue how the computerized primary classroom will look in the year 2010 Each chapter is based on the contributors current experiences in the context of the development of the UK National Curriculum

Computers in the Primary School Terry Russell, 1985 Teaching Computing Unplugged in Primary Schools Helen Caldwell (Lecturer in Education), Neil Smith, 2017 Teaching primary computing without computers The Computing curriculum is a challenge for primary school teachers The realities of primary school resources mean limited access to computer hardware But computing is about more than computers Important aspects of the fundamental principles and concepts of computer science can be taught without any hardware Children can learn to analyse problems and computational terms and apply computational thinking to solve problems without turning on a computer **Teaching Computing Unplugged in Primary Schools** Helen Caldwell, Neil Smith, 2016-10-18 Teaching primary computing without computers The Computing curriculum is a challenge for primary school teachers The realities of primary school resources mean limited access to computer hardware But computing is about more than computers Important aspects of the fundamental principles and concepts of computer science can be taught without any hardware Children can learn to analyse problems and computational terms and apply computational thinking to solve problems without turning on a computer This book shows you how you can teach computing through unplugged activities It provides lesson examples and everyday activities to help teachers and pupils explore computing concepts in a concrete way accelerating their understanding and grasp of key ideas such as abstraction logic algorithms and data representation The unplugged approach is physical and collaborative using kinaesthetic learning to help make computing concepts more meaningful and memorable This book will help you to elevate your teaching and your children s learning of computing beyond the available hardware It focuses on the building blocks of understanding required for computation thinking *Computers and Talk in the Primary Classroom* Rupert Wegerif, Peter Scrimshaw, 1997 This text looks at how computers are being used in primary classrooms and how they could be used better Its three sections focus upon how do we investigate learning through talk around computers What affects the quality of group work around computers What can teachers do to improve this **Teaching and Learning with ICT in the Primary**

School Marilyn Leask, John Meadows, 2000 Teaching and Learning with ICT in the Primary School introduces teachers to the range of ways in which ICT can be used to support and extend the teaching and learning opportunities in their classrooms Chapters cover areas such as literacy numeracy science and their relationship with ICT managing curriculum projects using ICT creating and using multimedia applications Ideas and activities for teachers to try are based on tried and tested methods from innovative schools around the UK and abroad Practising teachers and students will find this an invaluable guide on how to work together to extend their skills and knowledge in the area of ICT *Using Computers in the Primary School*

Rosemary Guttormsen, 1987 **Computer Studies For Primary Schools** Babatunde T Adedokun, 2020-05-18 Computer studies book 3 is a continuation and development series from book 2 This book begins with the meaning quality and origin of computers studies in both traditional and contemporary concepts Realizing that practicing computer requires some specific materials and tools the author provides suggested compilation of such items with some improvised types care and usage It is important to the users of this book would discover the appropriate blend in the teaching and demonstration of computers in a traditional and contemporary method These days good and research textbooks are scarce especially those that are relevant to computer studies at the basic level education this book will serve as being very timely particularly to the target users I recommend it to all basic and elementary schools *Computers in the Primary School* R. J. Riding, 1984 *Teaching and Learning with ICT in the Primary School* Marilyn Leask, John Meadows, 2000 Teaching and Learning with ICT in the Primary School introduces teachers to the range of ways in which ICT can be used to support and extend the teaching and learning opportunities in their classrooms Chapters cover areas such as literacy numeracy science and their relationship with ICT managing curriculum projects using ICT creating and using multimedia applications Ideas and activities for teachers to try are based on tried and tested methods from innovative schools around the UK and abroad Practising teachers and students will find this an invaluable guide on how to work together to extend their skills and knowledge in the area of ICT
