

How to Shoot Clay Pigeons

The gun stock should be set firmly against your shoulder and your cheek should be pressed against the top as you look down the barrel with your dominant eye.

Train your gun on the clay pigeon as soon as it's thrown, then pull away and aim slightly ahead on the pigeon's flight path before firing. Keep the gun moving through your shot.

The pigeon's flight path will remain consistent, so practice several shots with varying lead times until you get a hit.

Use low recoil loads in your shotgun for less shoulder fatigue and faster shots.

Keep your back leg straight and your leading leg slightly bent, with your leading foot pointed toward the target area.
