Destination Death:

Reflections on Death and Grief Albert J.D. Walsh, 2010-01-07 When we are called to minister to the dying and or bereaved many of us who count ourselves as servants of God too easily prejudge the matter and rush in with words and a trite formula Words have become our trade jargon our bane and verbiage our downfall Bert Walsh knows this all too well Only in the last of five chapters does he get around to the things which we are to say in the presence of crisis But those are words we have long ago learned from reading the New Testament or heard time and again from well meaning consolers What is crucial is that which comes before those words are spoken and surrounds them from the Foreword by G Clarke Chapman Jr Believing that death and bereavement present pastors and believers with the most extreme challenges to faith Bert Walsh carefully examines the potential for new discoveries greater personal growth and maturity in faith offered to those who minister to the dying and bereaved With his uncommon insight and measured simple purposeful style the author helps those who minister to the grieving to develop a new sensitivity to both spoken and unspoken needs He expertly demonstrates that there is a time for words of solace and consolation there is also a time for silence a time for touching a time to share tears Periods of silence no longer need to be awkward or uncomfortable Rather they can become productive moments of quiet reflection and prayer

Manifold Utopia Marc Delrez, 2021-10-01 This study of Janet Frame's fiction addresses with unusual directness the Utopian momentum that underpins her concern with fundamental social issues traditionally highlighted in existing criticism of her work The idea behind this book is that Frame's critique of society while it is offered for its own sake on one level should not lead us to neglect the author's more speculative interest in an alternative conception of the human person Her engagement in a species of experimental portraiture proves elusive though owing to an indirectness of approach that usually takes the form of thematic circumscription rather than explicit representation For example the figure of the mute child recurrent in her work may well testify to a concern with the plight of the mentally ill but on another level it also points to an envelope of intractable experience which it is the artist's task to penetrate and explain Such aspiration is inseparable from the search for a new medium of expression felt to be necessary if one is to meet the challenge of apprehending the scope of pioneering knowledge This close reading of the novels reveals

that the alternative dimension of experience to be found in Frame s novels is characterized by an intact capacity for remembering or for imaginatively re creating eclipsed aspects of the present Frame s view of Utopia thus turns out to be manifold it is existential and ontological linguistic and epistemological but also historical and political An unravelling of these intertwined strains then serves to clarify the complex question of Frame s post colonial sensibility which cannot be said to rely on a sense of rigid identity whether national or otherwise
